

Joint Meeting
of the 20th ISSTD
and 14th IUSTI

STI & AIDS
WorldCongress
2013 July 14-17
Vienna *Threatening past,
promising future.*

FINAL PROGRAMME

Detect it in here.
Stop it out there.

Xpert® CT/NG & Xpert® CT:
Three targets, 90 minutes.
No repeat testing.

Achieve same-day detection and containment with Xpert CT/NG. In addition to single-test confidence for CT/NG, our full menu of fast, accurate and easy-to-use molecular tests helps you strengthen antibiotic stewardship, shrink patient stays, advance care, and reduce costs. Welcome to immediate informed decisions.

Cepheid powers same-day results in more than 3,000 locations worldwide.
Learn more at cepheidinternational.com.

WELCOMING ADDRESS

WELCOME TO THE STI & AIDS WORLD CONGRESS 2013 IN VIENNA!

Dear Friends and Colleagues,

We take great pleasure in welcoming you to the **STI & AIDS World Congress 2013 in Vienna** on behalf of the Boards and Executive Committees of both, the **International Society for Sexually Transmitted Diseases Research (ISSTD)** and the **International Union against Sexually Transmitted Infections (IUSTI)**

This is the first time that the ISSTD has decided to hold its biennial conference in Vienna and it is a special privilege to organize the **20th Meeting of the ISSTD** as the 4th joint meeting with the **14th World Congress of the IUSTI**. This meeting marks also the 90th year of the foundation of IUSTI and will give us a reason for a special celebration.

Vienna, located in the centre of Europe, has a tradition for a major conference site at least since the year 1815, when the city hosted the peace talks following the Napoleon Wars with the historic sentence "The congress dances in the Vienna Hofburg". Vienna has established an outstanding reputation as conference city and ranks on the top of congress destinations of the world. As a former imperial city with a modern flair, Vienna offers an excellent setting for meetings, optimally combining art treasures, music, and enjoyment. We have chosen for this congress the most attractive conference venue, the Vienna Hofburg, the former Winter Palace of the Habsburg Emperors.

This conference provides one of the best opportunities for clinicians and scientists to present and discuss the latest developments in STI and AIDS. Under the guidance of the Chair and the Members of the International Scientific Committee the scientific programme is of highest quality with a wide range of important topics from research to clinical practice. We are impressed by the high interest in this conference: more than 1300 abstracts were submitted by delegates from more than 100 countries of which about 150 were selected for oral presentations and close to 1000 as posters. The oral presentations and symposia reflect research of the area of all six scientific tracks and are supplemented by plenary lectures and debates on innovative topics. The last session will summarize the main research results by experts of the scientific tracks for all participants who had not the chance to follow all lectures in the parallel sessions.

We believe that the programme presents the best from both organisations – a strong commitment to basic science as well as a clear focus on translational efforts to ensure that our discussions remain pertinent to the pressing problems of STI cure and containment. The conference theme "Threatening Past - Promising Future" encapsulates our hopes for the meeting.

STIs disproportionately impact the developing world and the organizers - through the programme and scholarship committees - have made efforts to ensure truly global participation and to foster new talents through encouraging attendance by young researchers, an important priority for our field. About 60 out of more than 250 applications were selected by the scholarship committee and are attending with the support of travel grants, funded by a generous contribution from the Office of AIDS Research, National Institute of Health. We are thankful to the Centers for Disease Control, USA, and the WHO for their contribution and donations as well as to numerous companies and local governmental agencies.

We also wish to thank the many individuals from the ISSTD and IUSTI Boards, the Local Organizing and the International Scientific Committee who dedicated energy and time to make this meeting successful.

We hope that you will find the conference intellectually and socially rewarding and invite you to participate in the scientific programme, the opening ceremony and the Gala Dinner at the Vienna City Hall. "The congress dances in the Vienna Hofburg"

Join us in Vienna for what promises to be a wonderful event!

Angelika Stary
Congress Chair
ISSTD President

Raj Patel
Congress Co-chair
IUSTI President

CONGRESS ORGANISING COMMITTEE

Congress Chair of the STI & AIDS World Congress 2013:
Co-Chair of the STI & AIDS World Congress 2013:

SCHOLARSHIP COMMITTEE

Chair: **David Lewis, Sandringham, South Africa**
Jo-Anne Dillon, Saskatoon, Canada
Charlotte Gaydos, Baltimore, United States

BOARDS

INTERNATIONAL SOCIETY FOR STD RESEARCH (ISSTD)

Board Members:

Angelika Stary, *President and Chair of 20th Meeting, 2013 (Vienna, Austria)*
Basil Donovan, *President Elect and Chair of the 21st Meeting, Brisbane, 2015 (Sydney, Australia)*
Michel Alary, *Immediate Past President and Chair, 19th Meeting, 2011 (Québec, Canada)*
Catherine Ison, *Past President and Chair, 18th Meeting, 2009 (London, United Kingdom)*
Henry De Vries (*Amsterdam, The Netherlands*)
Charlotte A. Gaydos (*Baltimore, United States*)
Matthew Golden (*Seattle, United States*)
Graham J. Hart (*London, United Kingdom*)
Jacky M. Jennings (*Baltimore, United States*)
David A. Lewis (*Sandringham, South Africa*)
Jeanne Marrazzo (*Seattle, United States*)
Barbara Van Der Pol (*Indianapolis, United States*)
Magnus Unemo (*Örebro, Sweden*)

Observers:

Gail Bolan,
*Liaison, Centers for Disease Control and Prevention (CDC),
(Atlanta, United States)*

Raj Patel,
*Liaison, International Union against Sexually
Transmitted Infections (IUSTI),
(Southampton, United Kingdom)*

INTERNATIONAL UNION AGAINST SEXUALLY TRANSMITTED INFECTIONS (IUSTI) EXECUTIVE COMMITTEE

Office Bearers:

Raj Patel, *Southampton, UK (President)*
David A Lewis, *Johannesburg, South Africa (President-Elect)*
Janet Wilson, *Leeds, UK (Secretary General)*
Immy Ahmed-Jushuf, *Nottingham, UK (Treasurer)*
Christopher Fairley, *Melbourne, Australia (Assistant Secretary General)*
King Holmes, *Seattle, USA (Immediate Past President)*
Somesh Gupta, *New Delhi, India (Membership Secretary)*
Jonathan Ross, *Birmingham, UK (Editor - STI Global Update)*

Regional Directors:

Roy Chan, *Asia-Pacific*
Patricia Garcia, *Latin-America*
Charlotte Gaydos, *North America*
David A Lewis, *Africa*
Keith Radcliffe, *Europe*

Elected Executive Committee Members:

Yaw Adu-Sarkodie, *Kumasi, Ghana*
Xiang-sheng Chen, *NanJing, China*
Marco Cusini, *Milan, Italy*
Jo-Anne Dillon, *Saskatoon, Canada*
John Douglas, *Atlanta, USA*
Amina Hançali, *Rabat, Morocco*
Michel Janier, *Paris, France*
Chavalit Mangkalaviraj, *Bangkok, Thailand*
Sam Phiri, *Lilongwe, Malawi*
Darren Russell, *Cairns, Australia*
Mihael Skerlev, *Zagreb, Croatia*
Miguel Tilli, *Buenos Aires, Argentina*
Freddy Tinajeros, *Tegucigalpa, Honduras*

PAST ISSTD R PRESIDENTS AND CONGRESS LOCATIONS

- 1st Meeting 1977:** Rotterdam, The Netherlands; **Chair: Ernst Stoltz**
- 2nd Meeting 1979:** Helsinki, Finland; **Chair: Alan Lassus**
- 3rd Meeting 1980:** Antwerp, Belgium; **Chair: Peter Piot**
- 4th Meeting 1981:** Heidelberg, Germany; **Chair: Detlef Petzoldt**
- 5th Meeting 1983:** Seattle, United States; **Chair: King K. Holmes**
- 6th Meeting 1985:** Brighton, United Kingdom; **Chair: JRW Harris**
- 7th Meeting 1987:** Atlanta, United States; **Chair: Sumner E. Thompson**
- 8th Meeting 1989:** Copenhagen, Denmark; **Chair: Inga Lind**
- 9th Meeting 1991:** Banff, Canada; **Chair: Allan Ronald**
- 10th Meeting 1993:** Helsinki, Finland; **Chair: Jorma Paavonen**
- 11th Meeting 1995:** New Orleans, United States; **Chair: D. H. Martin**
- 12th Meeting 1997:** Seville, Spain; **Chair: Evelio Perea** – 1st Joint ISSTD R-IUSTI Meeting
- 13th Meeting 1999:** Denver, United States; **Chair: Franklyn N. Judson**
- 14th Meeting 2001:** Berlin, Germany; **Chair: Peter Kohl** – 2nd Joint ISSTD R-IUSTI Meeting
- 15th Meeting 2003:** Ottawa, Canada; **Chair: Jo-Anne Dillon**
- 16th Meeting 2005:** Amsterdam, The Netherlands; **Chair: Roel Coutinho**
- 17th Meeting 2007:** Seattle, United States; **Chair: H. Hunter Handsfield** – 3rd Joint ISSTD R-IUSTI Meeting
- 18th Meeting 2009:** London, United Kingdom; **Chair: Catherine Ison**
- 19th Meeting 2011:** Québec, Canada; **Chair: Michel Alary**

KEYNOTE SPEAKER AND PLENARY SPEAKERS

Keynote speaker

Anthony S. Fauci

Anthony S. Fauci, M.D., is director of the National Institute of Allergy and Infectious Diseases (NIAID) at the National Institutes of Health. Dr. Fauci also is chief of the NIAID Laboratory of Immunoregulation, where he has made numerous important discoveries related to HIV/AIDS. He was one of the principal architects of the President's Emergency Plan for AIDS Relief (PEPFAR), which has already been responsible for saving millions of lives throughout the developing world. Dr. Fauci is a member of the US National Academy of Sciences and is the recipient of numerous prestigious awards including the National Medal of Science, the Mary Woodard Lasker Award for Public Service, and the Presidential Medal of Freedom. He is the author, coauthor, or editor of more than 1,200 scientific publications, including several major textbooks.

Plenary speakers

Sevgi O. Aral

Sevgi O. Aral, PhD, MA, MS holds Professorial appointments at the University of Washington in Seattle, University of Manitoba in Winnipeg, and Emory University in Atlanta. Dr. Aral came to the Centers for Disease Control and Prevention from Middle East Technical University in Ankara, Turkey where she was the chair of the Department of Social Sciences. Dr. Aral has authored more than 230 scientific articles and edited 16 journal issues and 2 books. She has served on many national and international work groups,

boards and committees; and has consulted for the World Health Organization, the European Union and the World Bank. She has also received the ASTDA Achievement Award and the Thomas Parran Award. Dr. Aral's research interests have included social and behavioral aspects of sexually transmitted disease, epidemiology and prevention; including gender, age and race effects; mixing patterns; sexual and social networks; contextual factors; social determinants and most recently, program science.

Jared Baeten

Dr. Baeten's research focuses on epidemiologic studies of HIV/STI transmission and clinical trials of novel HIV prevention interventions. He co-chairs the Partners PrEP Study, which demonstrated that emtricitabine/tenofovir pre-exposure prophylaxis (PrEP) provided 75% protection against heterosexual HIV acquisition. Linked projects include a large observational study of PrEP adherence and laboratory analyses of innate and adaptive immune responses related to PrEP. Other current projects include a) a multinational phase III trial of dapivirine vaginal ring for HIV prevention in women (MTN-020/ASPIRE, through the NIH Microbicides Trials Network, study chair), b) implementation studies of combination HIV prevention in South Africa and Uganda, c) epidemiologic studies exploring use of hormonal contraception as an HIV risk factor, and d) demonstration projects to deliver antiretroviral treatment and PrEP for HIV prevention in African HIV serodiscordant couples.

Willard Cates, Jr.

Willard Cates, Jr., M.D., M.P.H. is Distinguished Scientist and President Emeritus at FHI 360. Before joining FHI 19 years ago, Dr. Cates spent two decades at the Centers for Disease Control and Prevention, where he directed STD/HIV prevention efforts and helped lead family planning evaluation activities. Dr. Cates has authored or co-authored more than 450 scientific publications. He is a Member of the Institute of Medicine and the American College of Preventive Medicine. He serves as Adjunct Professor of Epidemiology at the University of North Carolina Gillings School of Global Public Health and Clinical Professor in UNC's Department of Medicine.

Xiang-Sheng Chen

Dr. Xiang-Sheng Chen is a professor of the Peking Union Medical College and Vice Director of the National Center for STD Control in China. He is a member of the Expert Advisory Panel for Disease Control of the National Health and Family Planning Commission (NHFPC) of China and one of leading experts to lead many STD control projects in China. He is also an executive committee member of the International Union against Sexually Transmitted Infections (IUSTI), and an adjunct professor of the University of North Carolina (UNC) School of Medicine at Chapel Hill.

Eduardo L. Franco

Dr. Franco is a cancer epidemiologist at McGill University, Montreal, where he is Professor and Chair, Department of Oncology, and Director, Division of Cancer Epidemiology. He published over 360 articles, 55 chapters, and two books. He is the Editor-in-Chief of Preventive Medicine and has served in the editorial boards of several journals. His distinctions include: Fellow of the Canadian Academy of Health Sciences (2012), Fellow of the Royal Society of Canada (2011), Lifetime Achievement Award, American Society for Colposcopy and Cervical Pathology (2010), Women in Government's Leadership Award (2008), Canadian Cancer Society's Warwick Prize (2004), Medical Research Council's Distinguished Scientist Award (2000), and Educational Excellence at McGill (2000).

Charlotte Gaydos

Dr. Gaydos is a Professor in the Division of Infectious Diseases, Johns Hopkins University, Director of the North American Branch for the International Union Against Sexually Transmitted Infections, and member of the Center for Global Health. She is the Director of the International STI, Respiratory Diseases, and Biothreat Research Laboratory. She has 45 years laboratory expertise in microbiology, has authored 22 book chapters, 320 research articles, and >500 abstracts/oral presentations.

Dr. Gaydos has conducted clinical trials for new diagnostics for STIs and respiratory pathogens and developed multiple DNA amplification tests. Internet recruitment of home-collected samples for STI screening has been an effective out-reach program. Her CLIA-licensed laboratory is the Core Diagnostic/Reference Laboratory for international studies of STIs, respiratory diseases, and trachoma. She is Diagnostic Core Co-investigator for the Mid-Atlantic Center of Excellence for Biothreat and Emerging Diseases and P.I. of an NIH Center grant to develop point-of-care tests for STIs.

PLENARY SPEAKERS

King Holmes

Dr. King Holmes chairs the Department of Global Health; is the Director of the University of Washington Center for AIDS and STDs, a WHO Collaborating Center; and Principle Investigator for the NIH-funded UW/FHCRC Center for AIDS Research which has over 550 members, including faculty, research scientists, and pre- and post-doctoral fellows. He is also PI for the UW International Training and Education Center on Health (I-TECH), with HIV-related programs in 20 countries throughout the world. Dr. Holmes has participated in research on STIs for 45 years and in research, training, and technical assistance

on HIV/AIDS and other STIs in Africa, Latin America, SE Asia, and the Western Pacific for over 25 years. He has participated in the design and conduct of 40 randomized controlled trials of STI treatment and prevention. His research has addressed the clinical epidemiology, pathogenesis, diagnosis, treatment, and prevention of bacterial, viral, and other STIs and STI-related clinical syndromes. He has trained and/or mentored over 100 scientists involved in HIV/STI research and care in the U.S. and other countries throughout the world.

Sheila A. Lukehart

Sheila A. Lukehart, Ph.D. is Professor of Medicine and Global Health at the University of Washington in Seattle, WA. She is a recognized expert on syphilis and *Treponema pallidum*, and was awarded the 2007 Thomas Parran Award from the American STD Association in recognition of her contributions to STD research. Dr. Lukehart has focused her research on molecular pathogenesis of syphilis, host immune responses to *Treponema pallidum*, neurosyphilis, syphilis-HIV interactions, and antibiotic resistance in *T. pallidum*. Dr. Lukehart has been actively involved in the training of young STD scientists and directs the University of Washington STD & AIDS Research Training Program.

Kenneth Mayer

Prof. Mayer's clinical research career has focused on the natural history and transmission of HIV in the US and in Asia. Dr. Mayer is currently a Professor at Harvard Medical School and Attending Physician and Director of HIV Prevention Research at Beth Israel Deaconess Hospital in Boston. As the founding Medical Research Director of Fenway Health, he created a community health research program that has developed an international reputation for its capability to conduct community-based peer reviewed research.

Thomas Quinn

Dr. Thomas Quinn is Senior Investigator and Head of the Section on International HIV/AIDS Research in the Laboratory of Immunoregulation at the National Institute of Allergy and Infectious Diseases. He is also Associate Director for International Research for the Division of Intramural Research at NIAID. He is the Director of the Center for Global Health, and is Professor of Medicine and International Health at The Johns Hopkins University. His research interests have involved laboratory investigations that have helped define the biological factors involved in sexual and perinatal transmission of HIV, the natural history and treatment of HIV infections, and the molecular epidemiology of HIV. He is a member of the Institute of Medicine and Fellow of the American Association for the Advancement of Science. He is an author of over 900 publications on HIV, STDs, and infectious diseases.

Georg Stingl

Dr. Stingl has contributed greatly to our understanding of the skin as an immune organ under physiologic and pathologic (e.g. psoriasis, atopic dermatitis, syphilis, HIV-infection) conditions. His major accomplishments include the discovery of Langerhans cells as immunocytes and of the indigenous T cell population of rodent skin. In the recent years, his research group has elucidated the mode of action of several immunomodulatory drugs. He is a member of the board of several scientific societies and organizations, advisory panels, scientific journals and committees, including honorary membership of the two leading societies of dermatological research, i.e. The Society for Investigative Dermatology and the European Society for Dermatological Research and membership of the Presiding Committee of the Austrian and the German Academy of Sciences.

Magnus Unemo

Dr. Magnus Unemo, Ph.D. and Assoc Professor in Medical Microbiology and Molecular Biology, is directing the WHO Collaborating Centre for Gonorrhoea and Other STIs and the Swedish Reference Laboratory for *Neisseria gonorrhoeae* at Örebro University Hospital, Sweden. He is also serving ECDC in numerous projects, is included in the ECDC STI Reference Laboratory hub for EU countries and is a member of the Editorial Board for the European STI Guidelines. His main research focuses on *N. gonorrhoeae* and other bacterial STIs, and he has published more than 170 peer-reviewed scientific papers and many chapters in international STI books.

David Wilson

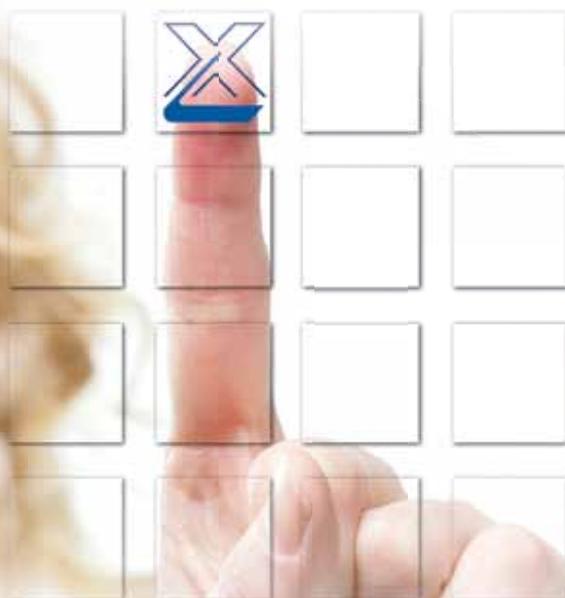

David Wilson is the World Bank's Global AIDS Program Director and was previously the Bank's Lead HIV Specialist. His work on HIV/AIDS spans almost 25 years. During his career he has worked as a scientist and program manager in over 50 countries and published approximately 100 scientific papers. He has developed prevention programs that have been recognized as best practice by the World Bank, WHO and DFID, and have been influential in international HIV prevention science. In addition, he has served as technical consultant and adviser to many international agencies, including USAID, DFID, EU, AUSAID, SIDA, NORAD, UNAIDS, UNICEF and WHO.

01 Basic Sciences Track

Chair: **Sheila Lukehart**

The Basic Science track will feature invited speakers in three Symposia:

- Bacterial Virulence and Host Response
- Molecular Mechanisms of Antimicrobial Resistance
- STD Vaccines and Correlates of Immunity

Oral sessions on Microbial Virulence and Host Response, Antimicrobial Resistance Mechanisms in STI Pathogens, and Molecular Analysis of STI Pathogens and their Environments will highlight selected abstracts. Poster Sessions include a variety of basic science posters that will be available for viewing and discussion with the authors.

02 Clinical Sciences Track

Chair: **Keith Radcliffe**

It is a pleasure and an honour to have played a part in selecting the material for the clinical track at this conference. A wide range of topics are covered but certain themes loom large, such as the role of new diagnostic technologies and the impact of vaccination against HPV. There are also new insights into long recognised syndromes such as bacterial vaginosis, uerthritis, proctitis and salpingitis. The problem of increasing antimicrobial resistance, especially in gonorrhoea, also receives a lot of attention and deservedly so. Overall the content reflects the fascinating and ever changing nature of this branch of medicine. I hope that you enjoy it.

03 Epidemiology and Prevention Sciences Track

Chair: **Jeanne Marrazzo**

The Epidemiology and Prevention track at ISSTD will feature research that reports on important communications in the epidemiology of common sexually transmitted infections, including genital herpes, genital human papillomavirus, HIV, chlamydial and gonococcal infections, and trichomoniasis. New data on emerging pathogens and their environments, including *Mycoplasma genitalium* and the genital microbiome, may also be featured. This track will also include important

research findings from studies that have aimed to prevent these important infections, particularly using biomedical approaches.

04 Social and Behavioral Sciences Track

Chair: **Sevgi Aral**

The Social and Behavioral Science Track covers recent scientific information on social determinants of STIs; behavioral risk factors for STI acquisition and transmission; and structural and behavioral interventions aiming to decrease STI transmission and acquisition at both the individual and population levels. The track also covers synergistic and antagonistic interactions among social and behavioral interventions as well as interactions between interventions and the social/epidemiological context they are introduced into.

05 Translational and Implementation Sciences Track

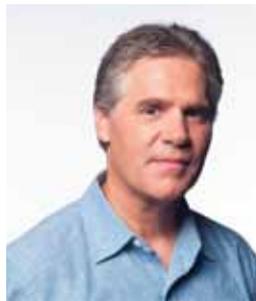

Chair: **Charlotte Gaydos**

The Translational and Implementation Science Track will provide new scientific findings on ways that research results from basic science, behavioural and treatment interventions, vaccine uptake, diagnostic assays, and laboratory issues are executed in order to provide the best clinical care for patients. Application and implementation of research interventions, best practice guidelines, and new diagnostic paradigms can provide real-world practical evaluations and clinical sustainability of research results in actual practice. Translating research from the "bench to the bedside" will ultimately provide the best clinical management for patients with sexually transmitted infections.

06 Health Policy and Program Sciences Track

Chair: **James Blanchard**

The past two decades have seen the emergence of a range of new technologies and interventions for the prevention, diagnosis and treatment of sexually transmitted infections (STIs). Despite these advances, curtailing and reversing STI epidemics remains a considerable public health challenge. In particular, scientific approaches are required to better assess epidemics and focus programs accordingly, selecting and combining interventions appropriately, and managing and evaluating programs as they are scaled up. The newly introduced Health Policy and Programme Sciences track will focus on these emerging opportunities and challenges, and highlight examples of how science can better contribute to STI programs.

**SCIENTIFIC
PRE-CONGRESS
PROGRAMME**

SUNDAY, JULY 14, 2013

A powerful combination – you and Roche *Meeting STD diagnostic and screening demands together*

Reduce the burden

The case for early and prompt diagnosis of sexually transmitted infection is overwhelming; early treatment and care contribute to the overall global control of sexually transmitted infections.

Increase lab efficiency

STD patient management based on rapid, definitive test results can have lasting impact both medically and economically. This is a winning combination for patients, labs and the community.

Proven product solutions

- **HPV:** Differentiating patients at highest risk for cervical cancer progression with 16 and 18 HPV genotyping as well as broad high risk coverage
- **CT/NG:** Innovative assay design reduces equivocal and repeats
- **HSV 1 and 2*:** Complete screening solution of symptomatic and asymptomatic patients for HSV 1 and 2 including serology and genotyping
- **HBV:** A complete solution from screening to treatment monitoring
- **HIV:** Comprehensive solution covering all stages of disease detection, progression and disease management

For more information, visit the Roche booth
or go to www.roche.com

* LightCycler® HSV 1/2 Qualitative Test is not available in the US
Roche Elecsys HSV-1 IgG and HSV-2 IgG immunoassays are FDA approved.

WHO Workshop:

New WHO STI Guidelines: Introduction and scaling up implementation, what does it take?

Background

Sexually transmitted infections (STIs) remain to be prevalent and continue to present a major burden of morbidity and mortality throughout the world, both directly, through their impact on quality of life, reproductive health, and child health, and indirectly, through their role in facilitating sexual transmission of HIV infection and their impact on national and individual economies.

Efforts to prevent and control STIs should be doubled in order to reduce STI burden and have an impact in HIV transmission and reproductive health. In order to scale up quality STI response and STI case management, effective guidelines based on evidence are essential. These publications provide basis for standardisation, training and supervision, continuous quality improvement as well as for programme management.

One of the WHO's core functions is to assess new evidence and innovations and translate them into concrete guidance for countries. These are intended to assist providers and recipients of health care and other stakeholders to make informed decisions.

WHO have just released several tools on surveillance and STI laboratory diagnosis. These include the following:

- STI Laboratory: Laboratory Diagnosis of Sexually Transmitted Infections, including HIV
- STI Surveillance: Strategies and laboratory methods for strengthening surveillance of sexually transmitted infections <http://www.who.int/reproductivehealth/publications/rtis/9789241504478/en/index.htm>
- Elimination of Congenital Syphilis: Methods for surveillance and monitoring of Congenital syphilis elimination with existing systems <http://www.who.int/reproductivehealth/publications/rtis/9789241503020/en/index.html>
- Cervical Cancer: Comprehensive Cervical Cancer Control: A guide to essential practice <http://www.who.int/reproductivehealth/topics/cancers/en/index.html>

A critical step in WHO publications, is the implementation of these publications as well as evaluation and monitoring. These needs to be made accessible and widely available.

WHO proposes to disseminate these publications and provide an orientation for IUSTI participants including programme managers, clinicians, scientists, laboratory technicians, epidemiologists.

Objectives

1. To present the key messages / contents of the new WHO STI publications
2. To elicit feedbacks on the new WHO STI publications that could inform the development of future or updated STI publications.
3. To identify priority actions to introduce the WHO STI publications in countries.

Methodology

Power Point presentation will be done to present the various STI guidelines. This will be followed by questions and answers to clarify some points in the presentation. A facilitated group discussion will follow to discuss recommendations to inform development of updated STI guidelines and identify key research agendas.

Name of the medicinal product: **Aldara 5% cream**. **Qualitative and quantitative composition:** Each sachet contains 12.5 mg of imiquimod in 250 mg cream (5 %). **100 mg of cream contains 5 mg of imiquimod**. **Excipients:** methyl hydroxybenzoate (E218) propyl hydroxybenzoate (E216), cetyl alcohol, stearyl alcohol, Isostearic acid, benzyl alcohol, white soft paraffin, polysorbate 60, sorbitan stearate, glycerol, xanthan gum, purified water. **Therapeutic indications:** Imiquimod cream is indicated for the topical treatment of : External genital and perianal warts (condylomata acuminata) in adults. Small superficial basal cell carcinomas (sBCCs) in adults. Clinically typical, nonhyperkeratotic, nonhypertrophic actinic keratoses (AKs) on the face or scalp in immunocompetent adult patients when size or number of lesions limit the efficacy and/or acceptability of cryotherapy and other topical treatment options are contraindicated or less appropriate. **Contraindications:** Hypersensitivity to the active substance or to any of the excipients. **Pharmacodynamic properties: Pharmacotherapeutic group:** Chemotherapeutics for topical use, antivirals : ATC Code : D06BB10. **Marketing and authorisation holder:** Meda AB. **For information regarding special warnings and special precautions for use, interaction with other medicinal products and other forms of interaction and undesirable effects we may refer to the published Summary of Product Characteristics.** **MEDA**

T. Wi and M. Kamb

PRE-CONGRESS PROGRAMME

SUNDAY, JULY 14, 2013

09:00 – 17:00

Room: Gartensaal

Established and Emerging STD/HIV Interventions in Countries of the South and Countries of the North: The Program Science Perspective (organised by CDC and University of Manitoba Symposium)

Organisers: *Sevgi O. Aral, Centers for Disease Control*
James F. Blanchard, University of Manitoba

This one-day meeting will explore the planning, implementation and evaluation of STD/HIV intervention strategies in countries of the global North and South with diverse epidemiological, economic and health system contexts. Definition of intervention strategies will specify interventions or intervention packages; populations targeted and methods for determining target populations; frequency and intensity of intervention delivery and methods used to determine such frequency and intensity; duration of intervention delivery and monitoring and evaluation approaches. The interventions covered will include, but not be limited to, treatment as prevention, screening and treatment; test-and treat; and pre-exposure prophylaxis. Intervention strategies will be discussed in relation to issues of resource allocation, effectiveness, efficiency, cost-effectiveness, marginal effectiveness, marginal costs and return on investments. Conceptual, theoretical (mathematical modeling) and empirical studies will be represented. The agenda for the meeting will include both invited and abstract driven presentations.

Programme

Chair: *K. Holmes, Seattle, United States*

PCS1.01 Welcome and Introductions

S. O. Aral, Atlanta, United States

PCS1.02 Established and Emerging STD/HIV Interventions: Opportunities and Challenges

J. Blanchard, Manitoba, Canada

PCS1.03 The changing nature and contribution of sex work to HIV transmission during the economic crisis in Zimbabwe.

J. Elmes, London, United Kingdom

PCS1.04 Implementation of the use of antiretrovirals for HIV pre-exposure prophylaxis in men who have sex with men: a work in progress

K. Mayer, Boston, United States

PCS1.05 Vaccination against human papillomavirus: Science, policy and program in the United States

L. Markowitz, Atlanta, United States

PCS1.06 Evaluation of Prevention of Mother to Child Transmission (PMTCT) HIV service delivery and uptake in a Demographic Surveillance Site (DSS) in northern rural Malawi

A. Price, London, United Kingdom

PCS1.07 Applying Program Science for strengthening the antenatal screening for HIV, syphilis and hepatitis B in Europe

C. Savolainen-Kopra, Helsinki, Finland

12:00 – 13:00 Lunch

Chair: *W. Cates, Chapel Hill, United States*

PCS1.08 Limits to the utility of randomized controlled trials and the need for systems science methods

J. Marazzo, Seattle, United States

PCS1.09 Understanding the impact and cost of scaling up targeted condom use HIV prevention interventions for female sex workers in India: Insights from mathematical modeling

J. Panovska-Griffiths, London, United Kingdom

PCS1.10 Modelling the impact and cost-effectiveness of treatment as prevention and pre-exposure prophylaxis amongst HIV serodiscordant couples in Nigeria

K. Mitchell, London, United Kingdom

PCS1.11 Maximizing the impact of federal STD prevention funds: Allocating resources across state and local areas

H. Chesson, Atlanta, United States

PCS1.12 Implementation of EPT: An analysis of comparative legal, government and healthcare systems of United States and Western Europe

R. Cramer, Atlanta, United States

PCS1.13 Program Science in remote Australia – using a continuous quality improvement program to reduce endemic rates in STI in remote Aboriginal communities in Australia

J. Ward, Sydney, Australia

PCS1.14 Wrap-up – Program Science: The Evolution

S. O. Aral, Atlanta, United States

13:00 – 15:15

Room: Geheime Ratstube

Joint symposium of the ÖGSTD (Austrian Society for STI and Dermatological Microbiology) and DSTIG (German Society for STI)

Chair: *N. Brockmeyer, Bochum, Germany*
C. Heller-Vitouch, Vienna, Austria

Programme

- PCS2.01** Why is the genital mucosa not constantly infected by *E. coli*?
E. Tschachler, Vienna, Austria
- PCS2.02** STI-Research: All eyes on *Chlamydia trachomatis*
D. Heuer, Berlin, Germany
- PCS2.03** Gonorrhoea: A german guideline update
P. Spornraft-Ragaller, Dresden, Germany
- PCS2.04** The heterogeneous clinical spectrum of primary syphilis
S. Lautenschlager, Zürich, Switzerland
- PCS2.05** Neurosyphilis: a reemerging aspect of infection with *Treponema pallidum*
A. Geusau, Vienna, Austria
- PCS2.06** Primary HIV infection – an ongoing challenge
A. Rieger, Vienna, Austria
- PCS2.07** Black dermatology: cutaneous and mucocutaneous manifestation of STI/AIDS
Z. Abebe, Mekelle, Ethiopia
- PCS2.08** STI-Counselling – For whom, how, and why? Recommendations of the DSTIG section for sexual health
E. Köhler, Frankfurt, Germany

15:30 – 17:00

Room: Geheime Ratstube

**American Sexually Transmitted Diseases Association- Young Investigators Symposium
Research in Progress: Highlights from The American STD Association Developmental Awards Program**

Chairs: *B. Stoner, St. Louis, United States - President, American Sexually Transmitted Diseases Association*
K. Rietmeijer, Denver, United States - President-Elect, American Sexually Transmitted Diseases Association

Synopsis: This symposium features contributions from recipients of the American Sexually Transmitted Disease Association (ASTDA) Development Awards Program. ASTDA started funding promising young investigators with these 2-year awards through a competitive process in 2008. To date, 10 investigators have been funded for a wide spectrum of STD-associated research projects, varying from laboratory basic science projects to behavioral interventions. In this symposium, recent recipients will discuss preliminary findings from their work. This session is intended to highlight the value of and need for promoting the entry of junior researchers into the field of STD research.

Programme

Introduction: *B. Stoner and K. Rietmeijer*

- YI.1** Condom use & pleasure in a sample of young men who have sex with men
R. Arrington-Sanders, Baltimore, United States
- YI.2** Teens, the Internet, and STD risk: findings and lessons learned from the Communication, Health and Teens (CH@T) study
E. Buhi, Tampa, United States
- YI.3** Sexually transmitted infections (STIs) vary among African American women who have sex with women based on exposure to male sexual partners
C. Muzny, Birmingham, United States
- YI.4** Gonococcal genomics shows impact of recombination on obscuring phylogenetic signal and disseminating resistance loci
Y. Grad, Boston, United States
- YI.5** Sexual risk factors amongst women who have sex with men and women: the Women in Indiana Sexual Health and Experience Study (WISHES)
V. R. Schick, Bloomington, United States

General Discussion & Adjourn, *K. Rietmeijer and B. Stoner, Moderators*

SD BIOLINE HIV/Syphilis Duo

Innovative strategies for
SYPHILIS and HIV testing in pregnant women

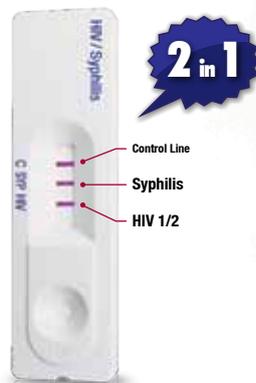

Save
Lives

Reduce
Time & Cost

Increase
Test coverage

2 in 1

Detect HIV and Syphilis in one device

- Detection of antibodies to all isotypes (IgG, IgM, IgA) specific to HIV-1/2 and *Treponema pallidum* simultaneously

Easy to use

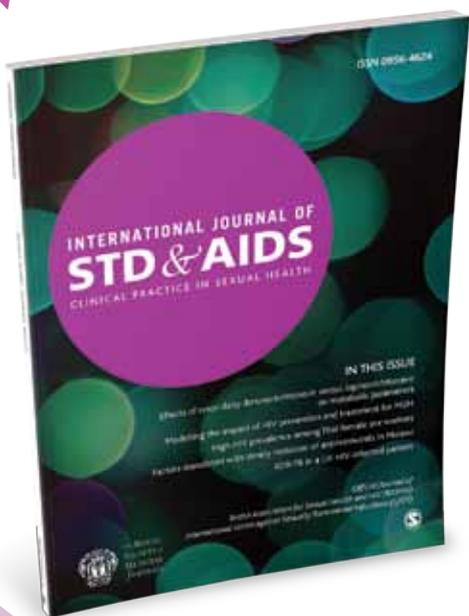

- Specimen : Whole blood / Serum / Plasma
- Assay time : 15~20 minutes
- Storage : 1-30°C
- Shelf life : 24 months

Excellent performance

- Sensitivity : HIV-100% Syphilis-99.0%
- Specificity : HIV-99.6% Syphilis-99.5%

.... providing you with a leading international forum for investigating and treating sexually transmissible infections, HIV and AIDS.

The **International Journal of STD & AIDS** is now online on the award-winning SAGE Journals platform. Formerly published by the Royal Society of Medicine Press, this journal provides a unique international forum for investigating and treating sexually transmitted infections and HIV. Publishing original research and practical papers, the journal also contains in-depth review articles, short papers, case reports, audit reports and a lively correspondence column.

Publishing 12 times a year, this is the official journal of the **British Association for Sexual Health & HIV (BASHH)** and the **International Union against Sexually Transmitted Infections (IUSTI)**

All STI & AIDS World Congress delegates can access this journal for free at <http://ijsa.sagepub.com> until the end of July!

Symposium 01 - Microbicides To Prevent HIV/STD 2013: An Update

Chairs: *J. Marrasso, Seattle, United States*
K. Bernstein, San Francisco, United States

- S01.1** An update on topical microbicide development .
I. McGowan, Pittsburgh, United States
- S01.2** Vaginal delivery of microbicides: Multipurpose Technologies.
H. Rees, Johannesburg, South Africa
- S01.3** Making anal sex safe: current status of products for rectal use.
R. Cranston, Pittsburgh, United States
- S01.4** Biomarkers of safety in microbicide research.
B. Herold, New York, United States

10:30 – 12:00

Room: Zeremoniensaal

Symposium 02 - Translating and Implementing the Results of Diagnostic Assay Evaluations: From the Research Laboratory to Patient Care

Chairs: *M. Chernesky, Hamilton, Canada*
M. Gomberg, Moscow, Russia

- S02.1** The Public Health need for Diagnostics and the Differing Pathways to Approval and Use Around the World.
C. Deal, Bethesda, United States
- S02.2** Overview of Rapid/Point of Care Diagnostic Tests for HIV and Current Challenges associated with HIV Testing.
A. Singh, Edmonton, Canada
- S02.3** Extra-genital CT/GC Testing by NAATS: Use in screening and prevalence of infection in MSM, issues in validation.
J. Schachter, San Francisco, United States
- S02.4** What are the most efficient ways to communicate research-derived information to clinical practice: the role of diagnostic and treatment guidelines, packet inserts, clinicians' perspective.
J. White, London, United Kingdom

10:30 – 12:00

Room: Forum

Symposium 03 - Advancing Prevention of Sexually Transmitted Infections through Sexual Health Promotion: Opportunities and Lessons Learned (organised by CDC/WHO/ECDC)

Chairs: *J. Douglas, Atlanta, United States (CDC)*
C. Garcia Moreno, Switzerland

- S03.1** Sexual health: conceptual framework and recommendations for indicators.
I. Toskin, Switzerland
- S03.2** Sexual health promotion interventions: results of a systematic review
M. Hogben, Atlanta, United States (CDC)
- S03.3** Addressing gender-based violence to reduce risk of STI and HIV.
C. Garcia Moreno, Switzerland
- S03.4** Sexual health in the European Union: an inventory of data, programmes, initiatives, and policies
M. van de Laar, Stockholm, Sweden (ECDC)
- S03.5** Advancing sexual health in the US: from theory to action.
J. Douglas, Atlanta, United States (CDC)
Panel discussion among presenters: improving STI prevention by promotion of sexual health

ROOM	RITTERSAAL	GARTENSAAL	GEHEIME RATSTUBE	TRABANTENSTUBE
10:30 - 12:00	O.01 Microbial Virulence and Host Response	O.02 Antimicrobial therapy for genital tract infections	O.03 Neisseria gonorrhoeae Resistance: Superbug ante portas?	O.04 Vaginal Infections and PID

10:30 – 12:00

Room: Rittersaal

Oral Session 01 - Microbial Virulence and Host Response

Chairs: *S. Lukehart, Seattle, United States*
G. Stingl, Vienna, Austria

- O01.1** Association of genetic variants with Chlamydia trachomatis reinfection
R. Kapil, J. Tang, C. G. Press, W. M. Geisler, Birmingham, United States
- O01.2** Innate immunity modulation by Trichomonas vaginalis galectin-binding glycolipid domains
R. N. Fichorova, H. S. Yamamoto, T. Fashemi, O. R. Buck, E. Foley, G. R. Hayes, S. Sato, B. N. Singh, Boston, United States
- O01.3** Regulatory T Cells in Peripheral Blood and Cerebrospinal Fluid of Syphilis Patients with and without Neurological Involvement: a Comprehensive and Comparative Study
K. Li, C. Wang, H. Lu, X. Gu, Z. Guan, P. Zhou, Shanghai, China
- O01.4** Blood transcriptional profiling of women with Chlamydia trachomatis identifies a pelvic inflammatory disease (PID) signature
T. Darville, X. Zheng, C. O'Connell, U. Nagarajan, I. Macio, H. Wiesenfeld, L. Rabe, S. Hillier, Pittsburgh, United States
- O01.5** Efficacy of RG1-VLP Vaccination against Genital and Cutaneous Human Papillomaviruses in Vitro and in Vivo
C. Schellenbacher, K. Kwak, D. Fink, S. Shafti-Keramat, B. Huber, C. Jindra, R. Roden, R. Kirnbauer, Vienna, Austria
- O01.6** Persistent SIV-seronegative macaque monkeys generate multi-cytokine anti-SIV mucosal immune responses following serial low-dose SIV mucosal challenge
K. S. MacDonald, K. Haq, J. Chan, O. Iwajomo, M. Janes, C. Perciani, R. Pilon, D. Caldwell, P. Sandstrom, D. O. Willer, Toronto, Canada

10:30 – 12:00

Room: Gartensaal

Oral Session 02 - Antimicrobial therapy for genital tract infections

Chairs: *M. Janier, Paris, France*
A. Hançali, Rabat, Morocco

- O02.1** A randomised, controlled study to assess the efficacy and safety of nifuratel vaginal tablets on bacterial vaginosis
W. Mendling, M. Caserini, R. Palmieri, Wuppertal, Germany
- O02.2** Susceptibility of Bacterial Vaginosis (BV)-Associated Bacteria and Lactobacilli to Rifaximin, Metronidazole and Clindamycin
S. L. Hillier, L. Cosentino, M. Petrino, L. Rabe, Pittsburgh, United States
- O02.3** Treatment outcomes for persistent Mycoplasma genitalium-associated NGU: Evidence of moxifloxacin treatment failures
L. E. Manhart, C. M. Khosropour, C. W. Gillespie, M. S. Lowens, M. R. Golden, P. A. Totten, Seattle, United States
- O02.4** Persistent/recurrent chlamydial infection among STD clinic patients treated with CDC-recommended therapies
C. M. Khosropour, R. Duan, L. R. Metsch, D. J. Feaster, M. R. Golden, Project Aware Study Team, Seattle, United States
- O02.5** A Phase II, dose ranging study to evaluate the efficacy and safety of single-dose oral solithromycin (CEM-101) for treatment of patients with uncomplicated urogenital gonorrhoea
E. W. Hook III, B. D. Jamieson, D. Oldach, H. Harbison, A. Whittington, P. Fernandes, Birmingham, United States
- O02.6** Azithromycin versus doxycycline for the treatment of genital chlamydia infection - a meta-analysis of randomised controlled trials
J. Hocking, F. Kong, L. Vodstrcil, R. Guy, M. Chen, C. Fairley, C. Bradshaw, S. Tabrizi, Carlton, Australia

10:30 – 12:00

Room: Geheime Ratstube

Oral Session 03 - Neisseria gonorrhoeae Resistance: Superbug ante portas?

Chairs: P. Kohl, Berlin, Germany
D. Barlow, London, United Kingdom

- 003.1** Risk factors for antimicrobial resistant *Neisseria gonorrhoeae* in Europe
M. J. Cole, G. Spiteri, K. Town, M. Unemo, S. Hoffmann, M. van de Laar, C. Ison, London, United Kingdom
- 003.2** Antimicrobial resistance of *Neisseria gonorrhoeae* in the European Union: response to the threat of multidrug resistant gonorrhoea
G. Spiteri, M. Cole, M. Unemo, S. Hoffmann, C. Ison, M. van de Laar, Stockholm, Sweden
- 003.3** Maximising the efficiency of gonorrhoea treatment by targeting the use of previous first line therapies to susceptible patients
K. Town, C. Obi, S. Chisholm, G. Hughes, C. A. Ison, London, United Kingdom
- 003.4** Genomic epidemiology of *Neisseria gonorrhoeae* with reduced susceptibility to cefixime in the United States
Y. H. Grad, R. Kirkcaldy, D. Trees, J. Dordel, E. Goldstein, H. Weinstock, J. Parkhill, W. P. Hanage, S. Bentley, M. Lipsitch, Boston, United States
- 003.5** Recent increases in gonorrhoea in Europe
G. Spiteri, K. Haar, O. Sfetcu, M. van de Laar, Stockholm, Sweden
- 003.6** Using molecular typing to investigate *N. gonorrhoeae* strain turnover: A comparative study of GISP isolates collected from Baltimore and San Francisco
K. Espinosa, J. Gerrity, M. Pandori, V. Marsiglia, J. Hardick, M. Barnes, D. Hess, C. Gaydos, Baltimore, United States

10:30 – 12:00

Room: Trabantenstube

Oral Session 04 - Vaginal Infections and PID

Chairs: B. Stoner, St. Louis, United States
A. Robinson, London, United Kingdom

- 004.1** The influence of hormonal contraception and pregnancy on the vaginal microbiome, sexually transmitted infections, and cytokine responses in a cohort of Rwandan sex workers
M. C. Verwijs, H. Borgdorff, F. W. N. M. Wit, F. H. Schuren, R. Lutter, R. Verhelst, M. J. M. Bonten, J. H. H. M. van de Wijgert, Amsterdam, Netherlands
- 004.2** Hormonal contraception is associated with a reduced risk of bacterial vaginosis: A Systematic Review and Meta-Analysis
L. A. Vodstrcil, J. S. Hocking, M. Law, S. Walker, C. K. Fairley, S. Tabrizi, C. S. Bradshaw, Carlton, Australia
- 004.3** Correlates of Incident *Trichomonas vaginalis* Infections Among African-American Adolescent Females
A. Swartzendruber, R. J. DiClemente, J. M. Sales, J. L. Brown, E. S. Rose, Atlanta, United States
- 004.4** Seroprevalence of Herpes Simplex Virus Types 1 and 2 - United States, 1999-2010
H. Bradley, L. E. Markowitz, T. Gibson, G. M. McQuillan, Atlanta, United States
- 004.5** Comparison of the clinical and demographic characteristics of neonatal herpes infections caused by herpes simplex virus type 1 and type 2; findings from a population-based surveillance system, 2006-2012
J. A. Schillinger, K. Washburn, E. Klingler, S. Blank, P. Pathela, Atlanta, United States
- 004.6** *Mycoplasma Genitalium* - Is it a Pathogen in Acute Pelvic Inflammatory Disease (PID)?
H. C. Wiesenfeld, S. L. Hillier, L. Meyn, G. Trucco, A. Amortegui, I. S. Macio, L. Rabe, L. Cosentino, T. Darville, Pittsburgh, United States

12:00 – 14:00

Lunch Satellite Symposia

SEE PROGRAMME PAGE XX

ROOM	PRINZ EUGEN SAAL	ZEREMONIENSAAL	FORUM
12:00 - 13:00		SAT01.SEX, DRUGS and ROCK'n'ROLL sponsored by Gilead Science GmbH	
13:00 - 14:00	SAT02. Integrated Approaches in the Management of Sexually Transmitted Infections Sponsored by Roche		SAT03. Comparison and Clinical Application of Instrumentation Platforms and Assays for STI Detection Sponsored by Hologic

ROOM	PRINZ EUGEN SAAL	ZEREMONIENSAAL
14:00 - 15:30	S.04 Scaling up of HIV treatment programs among the most at-risk populations in low-and middle-income countries	S.05 Fostering an Integrated Approach to the Control of Antimicrobial Resistance in <i>Neisseria gonorrhoeae</i> (organised by WHO)

14:00 – 15:30

Room: Prinz Eugen Saal

Symposium 04 - Scaling up of HIV treatment programs among the most at-risk populations in low- and middle-income countries

Chairs: *M. Alary, Québec, Canada*
N. Nagot, Montpellier, France

- S04.1** Scaling up of HIV treatment programs among the most at-risk populations in low- and middle-income countries - introduction
M. Alary, Québec, Canada
- S04.2** Modelling the impact of early anti-retroviral treatment amongst people who inject drugs in a high prevalence setting
P. Vickerman, London, United Kingdom
Experience with ART use among HIV-infected FSW
- S04.3** Antiretroviral therapy among female sex workers in Burkina Faso: current situation
I. Konate, Bobo-Dioulasso, Burkina
- S04.4** ART among FSW in South Africa.
F. Venter, Johannesburg, South Africa.
- S04.5** ART among FSW in India.
S. Mishra, London, UK
- S04.6** Examining the population-level impact of scaling-up ART for FSWs across epidemic context.
M-C. Boily, London, United Kingdom
- General Discussion*

14:00 – 15:30

Room: Zeremoniensaal

Symposium 05 - Fostering an Integrated Approach to the Control of Antimicrobial Resistance in *Neisseria gonorrhoeae* (organised by WHO)

Chairs: *G. Bolan, Atlanta, United States*
M. Lahra, Randwick, Australia

- S05.1** Antimicrobial resistance in *N. gonorrhoeae*: Update of the situation.
T.Wi, Geneva, Switzerland
- S05.2** Challenges and Opportunities: Potentials in Research on AMR Gonococci
C. Deal, Bethesda, United States
- S05.3** Genetic resistance determinants for extended-spectrum cephalosporins - possibilities for genetic resistance testing?
M. Unemo, Örebro, Sweden
- S05.4** Integrating antimicrobial susceptibility monitoring in *N. gonorrhoeae* to broader AMR agenda.
M. Ghidinelli, Washington, United States
- Round table discussion: Implementation of the WHO global action plan to control the spread and impact of AMR in N.G.
- Panellists:
M. Bala, New Delhi, India (South East Asia Region)
J-A. Dillon, Saskatoon, Canada (Region of the Americas)
M. Lahra, Randwick, Australia (Western Pacific Region)
M. Unemo, Örebro, Sweden (European Region)
S. Kidd, Atlanta, United States (United States)

ROOM	FORUM	RITTERSAAL	GARTENSAAL	GEHEIME RATSTUBE	TRABANTENSTUBE
14:00 - 15:30	O.05 Molecular Analysis of STI Pathogens and their Environments	O.06 Clinical Issues and Potential Solutions	O.07 Sexually Transmitted Infections: Social and Behavioural Determinants and Consequences	O.08 Get those partners treated!	O.09 Programme implementation and scaling up

14:00 – 15:30

Room: Forum

Oral Session 05 - Molecular Analysis of STI Pathogens and their Environments

Chairs: **L. Stanberry, New York, United States**
S. Hillier, Pittsburgh, United States

- O05.1** High grade anal Intraepithelial neoplasia: one virus, one lesion
O. Richel, K. D. Quint, J. Lindenman, C. M. Van Noesel, M. N. C. De Koning, H. A. M. Van den Munckhof, H. J. C. De Vries, J. M. Prins, W. G. V. Quint, Amsterdam, Netherlands
- O05.2** Measuring syphilis: Quantitative PCR can be used to monitor treatment response
C. Tiple, L. Hodson, R. Jones, M. Rayment, N. Nwokolo, M. McClure, G. Taylor, London, United Kingdom
- O05.3** More than meets the eye: A molecular phylogenetic analysis reveals importance of novel bacteria in bacterial vaginosis (BV)
S. Srinivasan, M. T. Morgan, C. Liu, F. A. Matsen, N. G. Hoffman, T. L. Fiedler, K. J. Agnew, J. M. Marrazzo, D. N. Fredricks, Seattle, United States
- O05.4** Association between Chlamydia trachomatis genital infection and the vaginal microbiome
B. Ma, R. M. Brotman, P. Gajer, D. Fadrosch, A. Mahurkar, O. White, M. Terplan, P. Bavoil, L. J. Forney, J. Ravel, Baltimore, United States
- O05.5** A longitudinal study of the vaginal microbiota and HPV detection
R. M. Brotman, M. D. Shardell, P. Gajer, J. K. Tracy, J. M. Zenilman, J. Ravel, P. E. Gravitt, Baltimore, United States
- O05.6** Endometrial Gardnerella vaginalis and Atopobium vaginae are associated with histologic endometritis among women with clinically diagnosed pelvic inflammatory disease (PID)
S. L. Hillier, L. K. Rabe, L. Meyn, I. Macio, G. Trucco, A. Amortegui, T. Darville, H. C. Wiesenfeld, Pittsburgh, United States

14:00 – 15:30

Room: Rittersaal

Oral Session 06 - Clinical Issues and Potential Solutions

Chairs: **M. Cusinsi, Milan, Italy**
M. Vall Mayans, Barcelona, Spain

- O06.1** Evaluation of 5 different tests for Trichomonas vaginalis (TV) infection and cost effective planning for clinical implementation
B. Nathan, J. Appiah, D. Heron, P. Saunders, R. Brum, S. Alexander, P. Baraitser, C. Ison, London, United Kingdom
- O06.2** A pilot randomized controlled trial of high-dose vitamin D supplementation to prevent recurrence of bacterial vaginosis
A. Norris Turner, P. Carr Reese, J. Anderson, K. S. Fields, M. Ervin, M. Klebanoff, R. Jackson, Columbus, United States
- O06.3** Macrolide resistance of Mycoplasma genitalium in France directly detected in clinical specimens by real-time PCR and melting curve analysis
A. Touati, O. Peuchant, J. Skov-Jensen, C. Bébéar, S. Pereyre, Bordeaux, France
- O06.4** Using SMS text reminders to reduce 'did not attend' (DNA) rates in sexual health and HIV appointment clinics
G. Brook, T. Farmer, S. Murphy, J. McSorley, London, United Kingdom
- O06.5** An exploratory evaluation of universal opt-out chlamydia testing during clinical encounters for young women in the United States
K. Owusu-Edusei, K. W. Hoover, G. D. Hart-Cooper, T. L. Gift, Atlanta, United States
- O06.6** A randomised, double-blind, controlled study to assess the efficacy and safety of nifuratel in the treatment of trichomoniasis
W. Mendling, M. Caserini, R. Palmieri, Wuppertal, Germany

14:00 – 15:30

Room: Gartensaal

Oral Session 07 - Sexually Transmitted Infections: Social and Behavioral Determinants and Consequences

Chairs: *H. Ward, London, United Kingdom*
J. Blanchard, Winnipeg, Canada

- 007.1** Sexual relationship importance and condom use among men attending STD clinics in two southern cities in the United States
P. Kissinger, S. White, N. Schmidt, S. N. Taylor, L. Mena, R. Lillis, S. Some, K. Defayette, A. Adamski, S. L. Rosenthal, New Orleans, United States
- 007.2** The changing relationship between migration and HIV over the life course of affected households in north India
T. Rai, H. S. Lambert, P. Piot, K. S. Agarwal, H. Ward, London, United Kingdom
- 007.3** A psychological experiment to examine the global impact of stigma on individuals diagnosed with type 1 herpes simplex virus (HSV-1)
J. Whale, E. Clarke, N. Patel, C. Graham, R. Ingham, R. Patel, Southampton, United Kingdom
- 007.4** The price of sex: insights into the determinants of the price of commercial sex among female sex workers in rural Zimbabwe
J. Elmes, K. Nhongo, T. Hallett, P. White, H. Ward, G. Garnett, C. Nyamukapa, S. Gregson, London, United Kingdom
- 007.5** Unprotected sex among high-risk partners: associations between relational characteristics of last sexual partner and unprotected anal intercourse (UAI) among men who have sex with men (MSM) and transgender women (TGW) in Lima, Peru
M. C. Cambou, A. Perez-Brumer, E. R. Segura, J. Salvatierra, J. Peinado, J. R. Lama, J. Sanchez, J. L. Clark, Los Angeles, United States
- 007.6** Age related differences in contraceptive prevalence and preference among harder-to-reach women on antiretroviral therapy (ART) living with HIV in British Columbia (BC), Canada
S. Patterson, K. Salters, W. Zhang, Y. Chen, B. Hogg, G. Ogilvie, A. Kaida, Burnaby, Canada

14:00 – 15:30

Room: Geheime Ratstube

Oral Session 08 - Get those partners treated!

Chairs: *J. Zenilman, Baltimore, United States*
F. Judson, Denver, United States

- 008.1** Assessing the added value of internet partner services for syphilis and HIV
K. T. Bernstein, R. Kohn, W. Wolf, F. Strona, C. Fann, S. Philip, San Francisco, United States
- 008.2** Use and effectiveness of an online partner notification tool for STI, called Suggest-A-Test
H. M. Götz, M. S. van Rooijen, P. Vriens, E. Op de Coul, M. Hamers, T. Heijman, F. van den Heuvel, R. Koekenbier, P. van Leeuwen, H. Voeten, Rotterdam, Netherlands
- 008.3** Barriers to bacterial STI screening of HIV+ men who have sex with men (MSM) in HIV Primary Care settings
L. A. Barbee, S. Dhanireddy, S. Tat, A. Radford, J. M. Marrazzo, Seattle, United States
- 008.4** Online access to home STI specimen collection and e-prescriptions linked to public health - is a comparative effectiveness trial feasible?
F. Spielberg, V. Levy, I. Kapur, S. Lensing, N. Acevedo, L. Venkatasubramanian, C. Leivermann, S. Philip, N. Padian, C. Gaydos, Washington, United States
- 008.5** Should all pregnant women be screened for chlamydial infection as recommended by CDC, or only those younger than 25 years as recommended by USPSTF?
G. Tao, K. Hoover, Atlanta, United States
- 008.6** Do you have an STI? Findings from a dedicated men's sexual health clinic in Alexandra township, South Africa
D. A. Lewis, C. Ricketts, A. Vezi, V. Maseko, Sandringham, South Africa

14:00 – 15:30

Room: Trabantenstube

Oral Session 09 - Programme implementation and scaling up

Chairs: *C. Ritmeijer, Denver, United States*
A. Schwartz Benzaken, Manaus, Brazil

- 009.1** Voices of HIV infected Children and their Families
B. Panda, K. Shaw, Kolkata, India
- 009.2** Financing free and universal access to antiretroviral drugs in the long-run: ART cost evolution in Brazil
C. Meiners-Chabin, Brasília, Brazil
- 009.3** A successful model in reaching out mobile population to control the spread of STI/HIV/AIDS: Experience from Link Worker Scheme implemented in 200 villages mostly inhabited by mobile population in West Bengal, India
B. Panda, D. Ghosh, A. Ishlam, R. Kundu, M. Mahato, Kolkata, India
- 009.4** Mobilization for HIV, Syphilis and Hepatitis B and C testing during Brazil's carnival
A. Bolzan, E. Santos, D. Serafim, E. Ayer, A. Neto, M. Chaves, V. Araújo, J. Cerqueira, Brasília, Brazil
- 009.5** Optimizing care efficiency at the STI clinic: using Chlamydia home collection kits
R. Koekenbier, A. Hendriks, M. van Veen, P. van Leeuwen, Amsterdam, Netherlands
- 009.6** CD4 below 500: increase of ART patients and the financial impact in Brazil
F. Viegas Neves da Silva, A. Guimaraes, R. Hallal, D. Greco, Brasília, Brazil

15:30 – 16:00

Hot Topics: Selected Poster Discussions 02

Chairs: *A. Geusau, Vienna, Austria*
L. Foley, Southampton, United Kingdom

- P3.449** The promise of estriol cream for prevention of vaginal infection in premenopausal women
I. G. Dzuba, H. Jones, S. A. Ballagh, W. H. Clark, S. Hillier, T. Irwin, P. Marx, S. Smith, R. S. Veazey, B. Winikoff, New York, United States
- P3.184** Sexually transmitted infections and pregnancy outcomes, Florida 2008-2010
K. Schmitt, D. R. Thompson, Tallahassee, United States
- P3.016** Prevalence and correlates of rectal-only Chlamydia infection at two Canadian STI clinics
J. Gratrix, J. Bergman, C. Egan, A. E. Singh, S. Drews, R. R. Read, Calgary, Canada
- P3.066** Rates and trends of pelvic inflammatory disease and ectopic pregnancy in England up to 2011: what can these data tell us about chlamydia epidemiology and control?
S. C. Woodhall, S. Wetten, J. Ross, T. Williams, G. Hughes, K. Soldan, London, United Kingdom
- P3.019** Is concurrency, number of partners or duration of partnership the most important factor associated with chlamydia in young Australian adults?
A. Yeung, M. Temple-Smith, A. Bingham, C. Fairley, M. Law, R. Guy, N. Low, B. Donovan, J. Kaldor, J. Hocking, Melbourne, Australia

08:30 - 10:00

Room: Festsaal

Plenary Session 03: Anton Luger Memorial

Chairs: *R. Patel, Southampton, United Kingdom*
E. Tschachler, Vienna, Austria

- PL03.1** STIs – 2013: Resurgence of Early Syphilis, Persistence of High STI Morbidity and Mortality, and Emergence of Antimicrobial Resistant STIs: Implications and Potential Responses.
K. Holmes, Seattle, United States
- PL03.2** Control of syphilis in the world's most populous country: opportunities and challenges
X-S. Chen, Nanjing, China
- PL03.3** Syphilis: From Pathogenesis to Control
S. Lukehart, Seattle, United States

10:30 – 12:00

Room: Prinz Eugen Saal

Symposium 06 - How Does Your Partner Know?

Chairs: *M. Golden, Seattle, United States*
C. Fairley, Melbourne, Australia

- S06.1** Treating contacts to gonorrhoea and chlamydia without a clinic visit; the efficacy and effectiveness of different models.
J. Schillinger, New York, United States
- S06.2** Using social media for partners services in adolescents.
K. Rietmeijer, Denver, United States
- S06.3** MSM Partner Services: What works?
M. Steben, Montréal, Canada
- S06.4** New directions in HIV partner services: an evolving model of global, integrated field services.
M. Golden, Seattle, United States

10:30 – 12:00

Room: Forum

Symposium 07 - Bacterial Virulence and Host Response

Chairs: *D. Lewis, Johannesburg, South Africa*
C. Ison, London, United Kingdom

- S07.1** Insights into maternal gonorrhoea: human primary cervical and amniochorionic epithelial cell responses to *Neisseria gonorrhoeae* infection.
J. Edwards, Columbus, United States
- S07.2** The extrusion paradigm of Chlamydia pathogenesis.
K. Hybiske, Berkeley, United States
- S07.3** Survival Strategies of *Haemophilus ducreyi*: Role of Transporters.
M. Bauer, Indianapolis, United States
- S07.4** Identification of determinants triggering antigenic variation in *Mycoplasma genitalium*.
R. Burgos Castellanos, Seattle, United States
- S07.5** Understanding dissemination of *Treponema pallidum* within the host; is there hope for a syphilis vaccine?
C. Cameron, Victoria, Canada

10:30 – 12:00

Room: Zeremoniensaal

Symposium 08 - STI/HIV Treatment Guidelines: Important Areas of Clinical Uncertainty

Chairs: *K. Radcliffe, Birmingham, United Kingdom*
K. Workowski, Atlanta, United States

Presentations of Guideline Issues and Panel discussion, K. Workowski, Atlanta, United States

- S08.1** Treatment of gonorrhoea in an era of emerging cephalosporin resistance and results of a randomized trial of new potential treatment options
B. Kirkcaldy, Atlanta, United States
- S08.2** Is azithromycin the best treatment for chlamydia?
K. Radcliffe, Birmingham, United Kingdom
- S08.3** *Mycoplasma genitalium* and *Chlamydia trachomatis* in laparoscopically diagnosed pelvic inflammatory disease.
C. Bjartling, Malmo, Sweden
- S08.4** *Mycoplasma genitalium*: implications for disease, treatment and the public health.
J. Jensen, Copenhagen, Denmark

ROOM	RITTERSAAL	GARTENSAAL	GEHEIME RATSTUBE	TRABANTENSTUBE
10:30 - 12:00	O.10 HPV: genital tract malignancy and vaccination	O.11 HIV Prevention and lessons learned from trials of HIV Pre-exposure Prophylaxis	O.12 Social Determinants and Structural Interventions	O.13 Epidemic appraisal and strategic planning

10:30 – 12:00

Room: Rittersaal

Oral Session 10 - HPV: genital tract malignancy and vaccination

Chairs: *J. Paavonen, Helsinki, Finland*
J. Sherrard, Oxford, United Kingdom

- O10.1** Age Specific Round 1 Results of a Cervical Cancer Screening Trial: HPV FOCAL
G. Ogilvie, M. Krajden, D. vanNiekerk, T. Ehlen, R. Martin, L. Smith, S. Peacock, G. C. E. Stuart, E. L. Franco, A. J. Coldman, Vancouver, Canada
- O10.2** A community-randomized phase IV human papillomavirus (HPV) vaccination trial of vaccination strategy
J. Paavonen, Helsinki, Finland
- O10.3** Predictors of women's intentions to receive cervical cancer screening with primary HPV testing
G. Ogilvie, L. Smith, D. van Niekerk, F. Khurshed, S. Greene, S. Hobbs, A. Coldman, E. Franco, Vancouver, Canada
- O10.4** Efficacy and safety of intralesional (IL) injection of Mycobacterium w vaccine vs. Imiquimod cream in the treatment of anogenital warts: A double blind randomized trial
S. Gupta, L. Dar, P. Kumar, V. Sharma, K. Verma, S. N. Dwivedi, New Delhi, India
- O10.5** Human papillomavirus (HPV) genotypes associated with persistent HSIL isolated by laser capture microdissection
A. M. Cornall, J. Roberts, S. M. Garland, R. J. Hillman, M. Poyten, F. Jin, A. E. Grulich, S. N. Tabrizi, Parkville, Australia
- O10.6** A potent combination microbicide gel inhibits SHIV-RT, HSV-2 and HPV infections in vivo
L. Kizima, A. Rodriguez, J. Kenney, M. Hsu, N. Derby, O. Mizenina, R. Menon, T. Zydowsky, M. Robbiani, J. Fernandez-Romero, New York, United States

10:30 – 12:00

Room: Gartensaal

Oral Session 11 - HIV Prevention and lessons learned from trials of HIV Pre-exposure Prophylaxis

Chairs: *M. Cohen, Chapel Hill, United States*
J. Hutterer, Vienna, Austria

- O11.1** Herpes simplex virus (HSV) infection in the VOICE (MTN 003) Study: pre-exposure prophylaxis (PrEP) for HIV with daily use of oral tenofovir, oral tenofovir-emtricitabine, or vaginal tenofovir gel
J. Marrazzo, L. Rabe, C. Kelly, T. Livant, M. Chirenje, B. Richardson, C. Deal, J. Piper, S. Hillier, Seattle, United States
- O11.2** Sexual behavior of heterosexual men and women receiving antiretroviral pre-exposure prophylaxis for HIV prevention: Post-unblinding analysis of the Partners PrEP Study
K. K. Mugwanya, D. Donnell, C. Celum, N. Mugo, K. K. Thomas, K. Ngure, P. Ndase, E. Katabira, J. M. Baeten, Seattle, United States
- O11.3** Using HCV incidence trends to disentangle the likely impact of HIV anti-retroviral treatment on decreasing HIV incidence amongst injecting drug users: a modelling analysis
C. Chiyaka, N. Martin, M. Hickman, P. Vickerman, London, United Kingdom
- O11.4** Population-based HIV Incidence among men diagnosed with infectious syphilis, 2000-2011
P. Pathela, S. Braunstein, C. Shepard, J. Schillinger, Queens, United States
- O11.5** Risks for sexually transmitted infections (STIs), HIV, and pregnancy among women working in entertainment establishments in Cambodia
W. P. Killam, P. Mun, J. D. Mutuc, N. Chann, S. Chan, R. W. Shiraishi, D. Warren, M. C. Vun, Phnom Penh, Cambodia
- O11.6** Migration and HIV Risk in Rakai Youth, 2000-2010
Z. R. Edelstein, A. C. Schulyer, S. HELLERINGER, Y. Wei, J. Sekasanvu, F. Nalugoda, R. H. Gray, M. J. Wawer, D. Serwadda, J. S. Santelli, New York, United States

10:30 – 12:00

Room: Geheime Ratstube

Oral Session 12 - Social Determinants and Structural Interventions

Chairs: G. Hart, London, United Kingdom
N. Brockmeyer, Bochum, Germany

- O12.1** Using social determinants to predict Neisseria gonorrhoeae infection risk at the census tract-level: findings from the STD Surveillance Network (SSuN), United States
M. Stenger, M. Samuel, H. Weinstock, Atlanta, United States
- O12.2** Church attendance in men who have sex with men diagnosed with HIV is associated with later presentation
N. J. Van Wagener, M. Mugavero, A. Westfall, J. Hollimon, L. Slater, G. Burkholder, J. Raper, E. W. Hook, Birmingham, United States
- O12.3** Evaluation of a community-based HIV preventive intervention for female sex workers in rural areas of Karnataka state, South India
R. G. Washington, A. Nath, P. Jawalkar, S. Isac, S. Moses, Bangalore, India
- O12.4** Design and feasibility of Yo Puedo, a combined conditional cash transfer and life skills sexual health intervention for adolescents in San Francisco, California: results of a randomized study
A. M. Minnis, E. vanDommelen-Gonzalez, E. Luecke, H. Cheng, W. Dow, S. Bautista-Arredondo, N. S. Padian, San Francisco, United States
- O12.5** Why is Australia giving free HPV vaccination to boys?
B. Donovan, Sydney, Australia
- O12.6** Understanding experiences and impact of domestic violence and abuse in gay and bisexual men attending a sexual health service in the UK
L. J. Bacchus, A. Buller, C. Sethi, J. White, London, United Kingdom

10:30 – 12:00

Room: Trabantenstube

Oral Session 13 - Epidemic appraisal and strategic planning

Chairs: G. Garnett, London, United Kingdom
X-S. Chen, Nanjing, China

- O13.1** The use of rapid epidemic appraisals for planning and scaling up focused HIV prevention programs for female sex workers in Nigeria
A. Ikpeazu, U. Daniel, A. Momah, W. Ameyan, B. Madu Mari, F. A. Akala, J. Blanchard, Federal Capital Territory, Nigeria
- O13.2** Can the UNAIDS Modes of Transmission Model be improved? A comparison of the original and revised model projections using data from Nigeria.
H. J. Prudden, C. H. Watts, P. Vickerman, N. Bobrova, L. Heise, M. K. Ogungbemi, A. Momah, J. F. Blanchard, A. M. Foss, London, United Kingdom
- O13.3** Estimating the epidemiological impact of antiretroviral treatment on heterosexual HIV epidemics in south India: a modeling study
S. Mishra, E. Mountain, M. Pickles, P. Vickerman, S. Shastri, R. Washington, M. Becker, M. Alary, M. Boily, the Strategic Epi-ART in India Modeling Team, London, United Kingdom
- O13.4** An ethnographic mapping study of "money boys" and the male sex trade industry in Chengdu, South West China
B. Yu, X. Wang, J. Zhang, X. Ma, S. Khan, J. Blanchard, R. Lorway, Winnipeg, Canada
- O13.5** The HIV Modes of Transmission Model: a systematic review of its findings and adherence to guidelines
Z. Shubber, S. Mishra, J. F. Vesga, M. C. Boily, London, United Kingdom
- O13.6** Focusing the delivery of the English National Chlamydia Screening Programme: exploring opportunities to expand testing within local services
I. Simms, S. C. Woodhall, A. Nardone, C. H. Mercer, A. Talebi, G. Hughes, London, United Kingdom

12:00 - 14:00

Oral Session 15 - For Lab Rats and other Mice and Men

Chairs: *C. Gaydos, Baltimore, United States*
D. Patton, Washington, United States

- 015.1** Sub-optimal CD4 T-cell recovery in HIV-1 subtype C patients on antiretroviral therapy: A search for predictive biomarkers and baseline characteristics
G. Retshabile, E. R. Kisanga, S. Gaseitsiwe, S. M. Moyo, H. Bussmann, J. Makhema, M. Essex, R. Marlink, R. Musonda, Gaborone, Botswana
- 015.2** Comparison of the Roche cobas 4800 CTNG test with microbial culture for detecting *Neisseria gonorrhoeae* in genital and non-genital specimens in New Zealand
A. Miller, C. Bromhead, M. Jones, D. Whiley, A. Upton, Wellington, New Zealand
- 015.3** Evaluation of an immunochromatographic point-of-care test for the simultaneous detection of nontreponemal and treponemal antibodies in patients with syphilis
R. Castro, Á. Lopes, Lisboa, Portugal
- 015.4** Field performance of the Alere Determine HIV Combo assay in a large Australian multi-centre study in a sexual health clinic setting
D. P. Conway, M. Holt, A. McNulty, D. L. Couldwell, D. E. Smith, S. C. Davies, P. Cunningham, P. Keen, R. Guy, Sydney, Australia
- 015.5** Performance characteristics of SD Bio line rapid HIV-Syphilis Duo test kit for simultaneous detection of HIV and Syphilis infections
R. O. Ondondo, J. B. Odoyo, E. A. Bukusi, Nairobi, Kenya
- 015.6** Molecular surveillance of *Neisseria gonorrhoeae* penicillin resistance: informing empiric prescribing policy in Western Australia
D. J. Speers, N. Goire, D. Mak, R. Fisk, Perth, Australia

14:00 – 15:30

Room: Geheime Ratstube

Oral Session 16 - STI-Potpourri: Chlamydia, HPV and Special populations

Chairs: *S. Lautenschlager, Zürich, Switzerland*
M. Potocnik, Ljubljana, Slovenia

- 016.1** The behavioural impact of chlamydia testing and attitudes towards testing among young adults in England
T. Hartney, P. Baraitser, A. Nardone, London, United Kingdom
- 016.2** Strain typing to resolve repeated *Chlamydia trachomatis* infections in young heterosexual Dutch populations
H. M. Götz, R. J. M. Bom, M. Wolfers, J. S. A. Fennema, I. V. F. van den Broek, A. G. C. L. Speksnijder, S. M. Bruisten, Rotterdam, Netherlands
- 016.3** Controlling chlamydia: Population modeling to assess promising interventions
J. W. Glasser, K. Owusu-Edusei, S. N. Glick, S. O. Aral, T. L. Gift, Atlanta, United States
- 016.4** Human papillomavirus in very young men who have sex with men and the potential benefit from vaccination
H. Zou, A. Morrow, S. Tabrizi, A. Grulich, S. Garland, J. Hocking, C. Bradshaw, G. Prestage, C. Fairley, M. Chen, Carlton, Australia
- 016.5** Concordance of anal, penile, and oral human papillomavirus hr-HPV infections and HPV seropositivity in HIV-infected and HIV-negative men who have sex with men: the HIV & HPV in MSM (H2M) study
V. M. van Rijn, M. Mollers, S. H. Mooij, A. C. G. L. Speksnijder, A. J. King, H. J. C. de Vries, F. R. M. van der Klis, H. E. de Melker, M. A. B. van der Sande, M. F. Schim van der Loeff, Amsterdam, Netherlands
- 016.6** Pre-vaccination seroprevalence of 15 human papillomavirus (HPV) types among Slovenian women screened for cervical cancer
I. Klavs, V. Učakar, M. M. Jelen, H. Faust, J. Dillner, M. Poljak, Ljubljana, Slovenia

14:00 – 15:30

Room: Trabantenstube

Oral Session 17 - Programme evaluation

Chairs: *S. Gupta, New Delhi, India*
S. Phiri, Lilongwe, Malawi

- 017.1** Increased HIV prevention program coverage and decline in HIV prevalence among female sex workers in south India
M. Alary, P. Banandur, S. P. Rajaram, U. K. Thammattoor, T. Thomas, M. K. Mainkar, R. Paranjape, R. Adhikary, T. Duchesne, B. M. Ramesh, Québec, Canada
- 017.2** HIV prevention at scale: has it worked? Evaluation of the impact of the Avahan programme in South India
M. Pickles, M. Boily, P. Vickerman, C. M. Lowndes, S. Moses, J. F. Blanchard, B. M. Ramesh, R. S. Paranjape, M. Alary, London, United Kingdom
- 017.3** Do we need to vaccinate males against HPV?
H. Ali, I. Korostil, R. J. Guy, H. Wand, A. E. Grulich, T. R. H. Read, D. G. Regan, C. K. Fairley, B. Donovan, Darlinghurst, Australia
- 017.4** Evaluating the cost effectiveness of targeted vaccination strategies to reduce incidence of HPV-related cancer and other clinical outcomes in men who have sex with men (MSM) in British Columbia, Canada
K. M. English, F. Marra, B. Davoudi, M. Gilbert, B. Pourbohloul, Vancouver, Canada
- 017.5** Impact of comprehensive HIV/AIDS - Youth Peer Education Program with integrated 'life skills' and 'community links' components on knowledge, attitude and behavior of youths in 65 schools in 2 districts of Karnataka state, India
P. Borkar, New Delhi, India
- 017.6** Expanded HIV Testing Program in STD Clinics Fails to Impact Diagnosis of New HIV-Positive Cases
P. W. Klein, L. C. Messer, P. A. Leone, W. C. Miller, Chapel Hill, United States

Changing tomorrow

Astellas has a vision to change tomorrow. Through our commitment to providing patients with hope for a brighter future, we aim to lead the way in our areas of therapeutic expertise; focusing where medical needs remain unmet. Through innovation, Astellas will continue to identify and develop new ways to improve the health of patients.

Our aim is that we will discover tomorrow's medical solutions to today's healthcare problems. In this, as in everything we do, Astellas is committed to the success that comes from Changing tomorrow.

Symposium 12 - STD Vaccines and Correlates of Immunity

Chairs: *A. Wald, Seattle, United States*
C. Cameron, Victoria, Canada

- S12.1** Human Papillomavirus Vaccines - Correlates of Protection are not defined.
A. Williamson, Cape Town, South Africa
- S12.2** Tales of woe: HSV vaccine and null study results.
A. Wald, Seattle, United States
- S12.3** Understanding how broadly cross-neutralizing antibodies develop in HIV infection - clues for HIV vaccine development?
L. Morris, Johannesburg, South Africa
- S12.4** Chlamydia trachomatis.
R. Johnson, Indianapolis, United States

10:30 – 12:00

Room: Prinz Eugen Saal

Symposium 13 - Challenges to a Comprehensive Approach to the Prevention of HIV and STI among Men who have Sex with Men in Europe (organised by ECDC)

Chairs: *M. van de Laar, Stockholm, Sweden*,
K. Fenton, England, United Kingdom

- S13.1** Current and future challenges in gay men's health
G. Hart, London, United Kingdom
- S13.2** Evidence-based targeted review of HIV and STI prevention interventions among MSM
A. Thorson, Stockholm, Sweden
- S13.3** The status of HIV prevention among MSM: an overview of the European response.
O. Sfetcu, Stockholm, Sweden
- S13.4** What do gay men need? – Challenges regarding comprehensive approaches in HIV-prevention interventions from a national perspective.
D. Sander, Berlin, Germany

Roundtable discussion: Improving disease prevention among MSM: barriers and challenges

10:30 – 12:00

Room: Forum

Symposium 14 - New strategies and implementation of best practices for dual elimination of mother-to-child transmission of syphilis and HIV (organised by WHO)

Chairs: *N. Broutet (WHO, Switzerland)*,
L. Khotenashvili (WHO, Copenhagen)

- S14.1** Understanding the impact of timing of treatment in pregnancy and associated adverse outcomes in Mozambique
M. Mussagy, Maputo, Mozambique
- S14.2** The CISNE Project: Implementation of POCT for syphilis and HIV in antenatal care and reproductive health services in Peru
P. Garcia, Lima, Peru
- S14.3** Explaining inaction: the politics of congenital syphilis and the global health agenda
J. Bump, Georgetown, United States, N. Salisbury, Seattle, United States
- S14.4** Monitoring the finish-line: integrated global criteria and processes for validation of EMTCT of syphilis and HIV
L. Newman, Geneva, Switzerland
- S14.5** Piloting methods for validation of elimination of MTCT of HIV and syphilis in St. Lucia and Chile
K. Hoover, Atlanta, United States

ROOM	RITTERSAAL	GARTENSAAL	GEHEIME RATSTUBE
10:30 - 12:00	O.18 Diagnosis of sexually transmitted infections	O.19 Prevention and Curing STIs: Who is the Winner?	O.20 Sexual Partnerships and Networks

10:30 – 12:00

Room: Rittersaal

Oral Session 18 - Diagnosis of sexually transmitted infections

Chairs: *H. de Vries, Amsterdam, The Netherlands*
H. Moi, Oslo, Norway

- O18.1 Molecular techniques for differentiation of the T. pallidum subspecies and specimen collection with FTA Elute cards
C. Chen, K. Chi, A. Pillay, Atlanta, United States
- O18.2 3 in 1 Study: Pooling self-taken pharyngeal, urethral and rectal samples into a single sample
B. J. Sultan, R. Fish, G. Carrick, R. Gilson, N. Brima, A. Robinson, D. Mercey, J. White, P. Benn, London, United Kingdom
- O18.3 Utility of cerebrospinal fluid analysis in the investigation and treatment of neurosyphilis
M. L. Noy, M. Rayment, A. Sullivan, M. Nelson, London, United Kingdom
- O18.4 Lack of vital capacity of Chlamydia trachomatis in fallopian tubes of patients with ectopic pregnancy
S. Dubrovina, Rostov-on-Don, Russian Federation
- O18.5 False negative HSV IgG1 and IgG2 antibody responses in individuals with a recurrent genital herpes infection
W. Roest, M. van Rooijen, D. Kwa, G. Jansen, H. de Vries, Amsterdam, Netherlands
- O18.6 Persistence of pharyngeal Chlamydia trachomatis for 1-2 weeks is common among clients at the Amsterdam STI clinic
M. S. van Rooijen, M. F. Schim van der Loeff, A. P. van Dam, A. G. C. L. Speksnijder, H. J. C. de Vries, Amsterdam, Netherlands

10:30 – 12:00

Room: Gartensaal

Oral Session 19 - Prevention and Curing STIs: Who is the Winner?

Chairs: *S. Garland, Parkville, Australia*
G. Bolan, Atlanta, United States

- O19.1 Azithromycin and Doxycycline Resistance Profiles of Mycoplasma genitalium and Association with Treatment Outcomes
P. A. Totten, N. L. Jensen, C. M. Khosopour, C. W. Gillespie, J. S. Jensen, G. K. Kenny, M. R. Golden, L. E. Manhart, Seattle, United States
- O19.2 Mycoplasma genitalium is as frequent a cause of urethritis as Chlamydia trachomatis, and has high rates of genotypic resistance to macrolide antibiotics.
M. J. Pond, A. Nori, A. A. Witney, R. Lopeman, P. D. Butcher, S. T. Sadiq, London, United Kingdom
- O19.3 Estimate of the prevalence of transmitted drug resistance (TDR) and acquired drug resistance (ADR) in a HIV resistance study of the German ClinSurv-HIV cohort
B. Bartmeyer, D. Schmidt, C. Kollan, G. Fätkenheuer, H. Stellbrink, J. Bogner, B. O. Jensen, M. Stoll, C. Kücherer, O. Hamouda, Berlin, Germany
- O19.4 Acceptability of HPV Vaccination among Parents of Adolescent School Going Girls in Mysore City, India
K. Krupp, V. Srinivas, L. Marlow, T. Li, A. Albetini, S. Gowda, A. Arun, P. Jaykrishna, P. Madhivanan, Mysore, India
- O19.5 Assessing the effectiveness of the Human Papillomavirus (HPV) vaccination program in Victoria, Australia
S. M. Garland, S. O. Osborne, E. J. Young, J. M. L. Brotherton, S. N. Tabrizi, D. M. Gertig, Y. Jayasinghe, Parkville, Australia
- O19.6 Use of surfactant vesicles as a potential gonococcal vaccine delivery system to generate antibody against neisserial Lipooligosaccharide
D. Stein, L. Zimmerman, J. Park, L. Stocker, P. DeShong, College Park, United States

10:30 – 12:00

Room: Geheime Ratstube

Oral Session 20 - Sexual Partnerships and Networks

Chairs: *W. Cates, Chapel Hill, United States*
H. David, Bethesda, United States

- O20.1 Two-mode analysis of HIV, HCV and risk behaviours: a place-based analysis of most at-risk populations in Winnipeg, Canada
S. Y. Shaw, C. Green, J. L. Wylie, Winnipeg, Canada
- O20.2 Social networks of STI patients have higher STI prevalence than social networks of community controls
N. E. Rosenberg, A. Pettifor, G. Kamanga, N. Bonongwe, C. Mapanje, I. Hoffman, F. Martinson, W. C. Miller, Lilongwe, Malawi
- O20.3 Sex in Seattle: Mechanistic modeling of sexual partnership dynamics
J. W. Glasser, H. W. Chesson, S. N. Glick, K. Owusu-Edusei, T. L. Gift, S. O. Aral, Atlanta, United States
- O20.4 Daily variation in feelings of intimacy predict incident STI within a prospective cohort of urban adolescent females
P. A. Matson, S. Chung, C. A. Gaydos, J. M. Ellen, Baltimore, United States
- O20.5 Patterns of sexual and social mixing among heterosexual couples living together in England: Analyses of a probability sample survey
P. Prah, C. H. Mercer, A. M. Johnson, London, United Kingdom
- O20.6 Sexual partnership patterns among young people in rural Tanzania
A. M. Doyle, J. Changalucha, H. A. Weiss, D. Watson-Jones, R. J. Hayes, B. Zaba, A. Ross, London, United Kingdom

12:00 - 13:30

Room: Redoutensaal

The American STD Association Awards Luncheon and Lecture

Young Investigator Award: *Dr. Jesse Clark*

Achievement Award: *Dr. Jane Schwebke*

Distinguished Career Award: *Dr. Jonathan Zenilman*

"The Historical Legacy of STD Research - Lessons from Guatemala and Dr. Thomas Parran"

SEE MAP PAGE XX

ROOM	PRINZ EUGEN SAAL	ZEREMONIENSAAL
13:30 - 15:00	S.15 Sexual Networks and Contagion (Insights from phylodynamic studies, behaviour diffusion, social media studies)	S.16 Challenging Clinical Conditions

13:30 - 15:00

Room: Prinz Eugen Saal

Symposium 15 - Sexual Networks and Contagion (Insights from phylodynamic studies, behaviour diffusion, social media studies)

Chairs: *M. Hobgen, Atlanta, United States*
J. Jennings, Baltimore, United States

- S15.1** Frequent viral introductions sustain local HIV epidemics in rural Africa.
K. Grabowski, Baltimore, United States
- S15.2** Social networking and diffusion of risks and interventions among youth.
S.D. Young, Los Angeles, United States
- S15.3** Modification of sexual networks and sexual risk for men having sex with men (MSM) by the Internet.
U. Marcus, Berlin, Germany
- S15.4** Discussant. Implications of Sexual Networks.
J. Jennings, Baltimore, United States

13:30 - 15:00

Room: Zeremoniensaal

Symposium 16 - Challenging Clinical Conditions

Chairs: *J. Wilson, Leeds, United Kingdom*
J. Schwebke, Birmingham, United States

- S16.1** Recurrent and persistent urethritis in men - a structured evidence based approach to management.
P. Horner, Bristol, United Kingdom
- S16.2** Recurrent BV.
J. Marrazzo, Seattle, United States
- S16.3** Recurrent TV: The potential of molecular techniques to improve clinical practice.
M. Hobbs, Chapel Hill, United States
- S16.4** Lymphogranuloma venereum in Men who have Sex with Men. An ongoing epidemic since 10 years, but still not tackled.
H. De Vries, Amsterdam, The Netherlands
- S16.5** Management of syphilis in pregnancy.
J. Wilson, Leeds, United Kingdom

ROOM	FORUM	RITTERSAAL	GARTENSAAL
13:30 - 15:00	O.21 Antimicrobial Resistance Mechanisms in STI Pathogens	O.22 Alternative screening tools and screening sites	O.23 Risk Behaviors and Preventive Interventions

Room: Forum

O.21 Antimicrobial Resistance Mechanisms in STI Pathogens

Chairs: *M. Unemo, Örebro, Sweden*
F. Sparling, Chapel Hill, United States

- O21.1** Mycoplasma genitalium infectious load and treatment failure due to selected macrolide resistance
J. Twin, C. Bradshaw, S. Garland, M. Bissessor, M. Chen, J. Walker, C. Fairley, J. Hocking, S. Tabrizi, Melbourne, Australia
- O21.2** Effect of mutations in pilQ on the susceptibility of Neisseria gonorrhoeae to cephalosporins
D. Trees, K. Pettus, S. Johnson, Atlanta, United States
- O21.3** Fitness studies on Neisseria gonorrhoeae harboring mosaic penA alleles from ceftriaxone-resistant isolates predict the spread of resistance to extended-spectrum cephalosporins
L. R. Vincent, M. Unemo, M. Duncan, R. A. Nicholas, A. E. Jerse, Bethesda, United States
- O21.4** In vitro synergy determination for dual antibiotic therapy against resistant Neisseria gonorrhoeae using Etest® and agar dilution
C. M. Wind, H. J. C. de Vries, A. P. van Dam, Amsterdam, Netherlands
- O21.5** Understanding the molecular mechanism of mtrR in the regulation of antimicrobial resistance in Neisseria gonorrhoeae using in vitro and In silico studies
D. Sachdev, I. Kumari, M. Chopra, L. R. Singh, D. Saluja, Delhi, India
- O21.6** A Tale of Two Cities: Treponema pallidum Macrolide Resistance in Colombo (Sri Lanka) and London (United Kingdom)
D. Mallikarachchi, L. Hodson, C. Duckett, G. Weerasinghe, K. Buddhakorale, M. McClure, G. Taylor, C. Tipple, Colombo, Sri Lanka

13:30 – 15:00

Room: Rittersaal

O.22 Alternative screening tools and screening sites

Chairs: *J. Schachter, San Francisco, United States*
B. van der Pol, Indianapolis, United States

- O22.1** Evaluation of Syphilis point of care tests conducted by midwives at primary health facilities in Ghana
A. W. Dzokoto, D. Mabey, Y. Adu-Sarkordie, N. A. Addo, London, United Kingdom
- O22.2** Direct and indirect effects of screening for Chlamydia trachomatis on the prevention of pelvic inflammatory disease: mathematical modeling study
S. A. Herzog, J. C. M. Heijne, P. Scott, C. L. Althaus, N. Low, Graz, Austria
- O22.3** Texting Improves notification of Sexually Transmitted Infection Results after Emergency Department Visits
J. Reed, J. S. Huppert, R. Taylor, G. Gillespie, T. Byczkowski, J. Kahn, E. Alessandrini, Cincinnati, United States
- O22.4** What are young people's perceptions of using electronic self-tests for STIs linked to mobile technology for diagnosis and care (eSTI2)?
S. S. Fuller, C. Aicken, L. J. Sutcliffe, C. S. Estcourt, V. Gkatzidou, K. Hone, P. Sonnenberg, P. Oakeshott, S. T. Sadiq, M. Shahmanesh, London, United Kingdom
- O22.5** Providing discrete and reliable STD testing in Alaska via a web-based at-home service
B. Simons, C. Jessen, L. Rea, M. Barnes, P. Barnes, C. Gaydos, Anchorage, United States
- O22.6** Field evaluation of three point-of-care tests for chlamydia and gonorrhoea in remote health services in Australia
L. M. Causer, B. Hengel, L. Natoli, A. Tangey, S. Badman, S. N. Tabrizi, D. Whiley, J. Ward, J. M. Kaldor, R. Guy on behalf of TTANGO Investigators, Sydney, Australia
- O22.7** Home-based sample collection increases chlamydia retesting and detects additional repeat positive tests: a randomised controlled trial in three risk groups
K. S. Smith, J. S. Hocking, H. Wand, M. Chen, C. K. Fairley, C. S. Bradshaw, P. Read, A. McNulty, M. Saville, S. N. Tabrizi, Sydney, Australia

13:30 – 15:00

Room: Gartensaal

O.23 Risk Behaviors and Preventive Interventions

Chairs: *K. Fenton, London, United Kingdom*
M. Waugh, Leeds, United Kingdom

- O23.1** Sexual risk trajectories among MSM in the United States: implications for PrEP delivery
H. A. Pines, P. M. Gorbach, R. E. Weiss, S. Shoptaw, D. G. Ostrow, R. D. Stall, M. Plankey, Los Angeles, United States
- O23.2** Correlates of inconsistent condom use during anal sex with female sex workers (FSWs) among male clients: Survey findings from three high prevalence states of India
S. Ramanathan, L. Ramakrishnan, P. Goswami, D. Yadav, B. George, S. Sen, V. Chakrapani, R. Paranjape, T. Subramanian, H. Rachakulla, New Delhi, India
- O23.3** Predictors of self-assessed risk of Chlamydia trachomatis infection among adolescents in Norway
K. Gravningen, H. Schirmer, A. Furberg, G. S. Simonsen, T. Wilsgaard, Tromsø, Norway
- O23.4** Understanding domestic violence as a predictor of adverse health outcomes and sexual risk-taking among men who have sex with men (MSM): a systematic review and meta-analysis
A. Buller, L. Bacchus, K. Devries, London, United Kingdom
- O23.5** "Circumcision Makes Them Half Men": Concerns about Loss of Masculinity May Deter Acceptance of Safe Medical Male Circumcision
P. Liljeston, A. V. Marcell, N. Nakyanjo, L. Leonard, M. J. Wawer, Baltimore, United States
- O23.6** Factors that influence contraceptive choice and use among HIV discordant couples in Kisumu, Kenya
J. B. Odoyo, B. Rono, K. Owuor, C. R. Cohen, E. A. Bukusi, Nairobi, Kenya

Joining forces to deliver extraordinary care

Now working as one company, Hologic and Gen-Probe are bringing together a comprehensive suite of best-in-class diagnostic products. As a leader in cytology and molecular technologies, we have thoughtfully blended engineering and science to deliver superior STI assays and flexible workflow automation with accurate and reliable results.

Visit the Hologic stand, HOFBURG Galerie - First Level to experience the power of the new Hologic and the promise of what's to come.

SATELLITE SYMPOSIA

TUESDAY, JULY 16, 2013

12:00 – 13:00

Room: **Zeremoniensaal**

Satellite Symposium 06 - Quadrivalent Vaccine Symposium: Optimizing Strategies for Protecting Girls and Boys Against HPV Cancers and Other Related Diseases

Lunch Satellite Symposium sponsored by MSD / SPMSD
A light lunch will be offered to the attendees in front of the Zeremoniensaal

Chairs: **E. Joura, Vienna, Austria**
J. Paavonen, Helsinki, Finland

Welcome/Introduction
J. Paavonen, Helsinki, Finland

- SAT06.1** Burden of HPV Disease in Males
J. Palefsky, San Francisco, United States
- SAT06.2** Clinical Efficacy & Long Term Follow Up Data
E. Joura, Vienna, Austria
- SAT06.3** Real World Impact & Best Practices for HPV Implementation
A. Grulich, Darlinghurst, Australia
Q&A/Conclusion
E. Joura, Vienna, Austria

13:00 – 14:00

Room: **Zeremoniensaal**

Satellite Symposium 07 - Xpert® CT/NG: Molecular Testing for Control Freaks

Lunch Satellite Symposium sponsored by Cepheid
A light lunch will be offered to the attendees in front of the Zeremoniensaal

Chair: **D. Persing, Sunnyvale, United States**
C. Gaydos, Baltimore, United States

- SAT07.1** Analytical evaluation of the GeneXpert® CT/NG
S. Tabrizi, Melbourne, Australia
- SAT07.2** Results for Today: Screening women quickly for CT/GC using the Xpert assay
B. Van Der Pol, Indianapolis, United States
- SAT07.3** Next Generation NAATS for STI Management - Into the future with the Xpert CT/NG
E. N. Hook III, Birmingham, United States

18:00 – 19:00

Room: **Forum**

Satellite Symposium 08 - New Paradigm of pMTCT using HIV and Syphilis combined diagnosis

Symposium sponsored by Standard Diagnostic, Inc.

Chair : (**Dr. Rosanna Peeling – TBD**)

- SAT08.1** Global problem of maternal HIV and syphilis – why is that important
J. D. Klausner, Los Angeles, United States
- SAT08.2** UN efforts to eliminate maternal-to-child transmission of HIV and syphilis
J. D. Klausner, Los Angeles, United States
- SAT08.3** The use of dual rapid combined HIV and syphilis tests
J. D. Klausner, Los Angeles, United States
- SAT08.4** Performance of dual rapid combined HIV and syphilis tests
R. Ondondo

Satellite Symposium 04 - Bacterial STIs in Europe

Satellite Symposium sponsored by **Astellas Europe B.V**

Chairs: **M. Gomberg, Moscow, Russia**
A. Stary, Vienna, Austria

- SAT04.1** Treatment of bacterial STI: interesting alternatives
M. Cusini, Milano, Italy
- SAT04.2** Is *C. trachomatis* infection still important in Europe?
M. Skerlev, Zagreb, Croatia
- SAT04.3** Bacterial STI in Europe: is there a difference between East and West?
A. Pöder, Tartu, Estonia
- SAT04.4** Prevalence of *Ureaplasma urealyticum* in women with risk of miscarriage
V. N. Prilepskaya, I. Y. Fofanova, Moscow, Russia
- SAT04.5** Is *M. genitalium* a second common bacterial STI? Russian experience in diagnostic and treatment
A. Y. Gushin, M. Gomberg, Moscow, Russia

18:00 – 19:00

Room: Forum

Satellite Symposium 05 - Molecular Diagnostics: A Syndromic Approach to STI & Vaginitis Testing Where should *Trichomonas vaginalis* be included?

Satellite Symposium sponsored by **BD Diagnostics**

Chair: **J. White, London, United Kingdom**

- SAT05.1** The Clinical Picture of Vaginitis and Selected STIs
J. Schwebke, Birmingham, United States
- SAT05.2** Molecular Testing : The Newest Technology to Diagnose Vaginitis & STIs
B. Van Der Pol, Indianapolis, United States

BD Molecular STI Testing

Simply the most comprehensive solution

For more than a century, BD has been dedicated to tackling some of the world's health-care challenges. Sexually transmitted infection incidence rates remain high in most of the world and they might be even higher since many are not diagnosed due to lack of appropriate methods. BD is committed to providing a range of solutions to support the fight against these diseases providing relevant clinical answers while using efficient and worry free technologies.

Learn more about BD's vision at our symposium on

Molecular Diagnostics: A Syndromic Approach to STI & Vaginitis Testing
Where should *Trichomonas vaginalis* be included?

Quadrivalent Vaccine Symposium: Optimizing Strategies for Protecting Girls and Boys Against HPV Cancers and Other Related Diseases

Tuesday, 16 July 2013
12:00 – 13:00

Hofburg Congress Center
Room: Zeremoniensaal
Vienna, Austria

Chairs: Elmar Joura
Jorma Paavonen

CHAIRS:

Elmar A. Joura
Associate Professor of Gynecology
Medical University of Vienna
Vienna, Austria

Jorma Paavonen
Department of Obstetrics and
Gynecology
University of Helsinki
Helsinki, Finland

FACULTY:

Andrew Grulich
Head, HIV Epidemiology and
Prevention Program
The Kirby Institute
Darlinghurst, Australia

Joel Palefsky
Professor of Medicine
University of California, San Francisco
San Francisco, California, USA

AGENDA

12:00 – 12:05	Welcome/Introduction	Jorma Paavonen
12:05 – 12:20	Burden of HPV Disease in Males	Joel Palefsky
12:20 – 12:35	Clinical Efficacy and Long-term Follow-up Data	Elmar Joura
12:35 – 12:50	Real World Impact and Best Practices for HPV Implementation	Andrew Grulich
12:50 – 13:00	Q&A/Conclusion	Elmar Joura

PROGRAMME CHANGES

The organiser cannot assume any liability for changes in the programme due to external or unforeseen circumstances.

PUBLICATION

Please note that your work will be published in the journal of **Sexually Transmitted Infections** in the **July 2013 Volume 89 Supplement 1**.

POSTERS

Topics

P.01 - Basic Sciences Track	P1.001 - P1.045
P.02 - Clinical Sciences Track	P2.001 - P2.196
P.03 - Epidemiology and Prevention Sciences Track	P3.001 - P3.449
P.04 - Social and Behavioural Sciences Track	P4.001 - P4.152
P.05 - Translational and Implementation Sciences Track	P5.001 - P5.110
P.06 - Health Policy and Programme Sciences Track	P6.001 - P6.076

Format

The usable surface on the poster board will be **90 cm width x 130 cm height** (approx. 35 x 51 inches). Upright format.

Mounting and Removal

Poster mounting will be possible on: **Monday, July 15, 2013, from 07.30 - 15.00 hrs**

Removal will be possible on: **Wednesday, July 17, 2013, from 10.30 hrs - 15.00 hrs**

*The organisers cannot assume any liability for loss or damage of posters displayed in the poster area. Please note that posters not removed by Wednesday, July 17, 2013 by 16:30 hrs will be taken down by the staff of the conference center and **will not be stored** or sent to the authors after the meeting*

Your **poster board number** has been sent to you in the information email for poster presenters. You will also find this number in the author index at the end of the Journal Sexually Transmitted Infections (Book of Abstracts included in your conference bag).

Presence at Posters

In order to enable discussion and interaction with other participants, we request you (or one of your group) to be at your poster board for the following sessions:

Poster Session 1

Monday, July 15, 2013 – 18:00 – 19:00 for the following poster topics:

- P.03 - Epidemiology and Prevention Sciences Track
- P.04 - Social and Behavioural Sciences Track

OR

Poster Session 2

Tuesday, July 16, 2013 – 18:00 – 19:00 for the following poster topics:

- P.01 - Basic Sciences Track
- P.02 - Clinical Sciences Track
- P.05 - Translational and Implementation Sciences Track
- P.06 - Health Policy and Programme Sciences Track

If this is not possible, please leave a note on your poster board detailing the times when you will be present at the board.

ORAL POSTER PRESENTATIONS

Abstracts selected for an oral poster presentations are posters which will also be presented by their authors in a short oral presentation during the "Hot Topic" Sessions.

Speaking Time

3 minutes presentation time, discussion time will be available at the end of the session.

Preparation

For the presentation of your poster, you have been asked to prepare the following:

- **A power point presentation** (maximum 3 slides) for the oral presentation of your poster
- **A poster** that will be mounted onsite in the poster exhibition

The surface on the poster board is **90 cm width x 130 cm height** (approx. 35 x 51 inches) and your poster should be in upright format.

ORAL PRESENTATIONS

Slide Preview Room

It is essential that you load and view your presentations in the preview room preferably in the morning before your talk, but no later than **2 hours in advance**.

The preview center is situated on the first floor of the congress center in **Room Künstlerzimmer**

Opening Hours Slide Preview Room

Sunday, July 14, 2013	07:30 – 19:00 hrs
Monday, July 15, 2013	07:00 – 19:00 hrs
Tuesday, July 16, 2013	07:00 – 19:00 hrs
Wednesday, July 17, 2013	07:00 – 15:30 hrs

Speaking Time

15 minutes slots a maximum of **10 minutes speaking time** and **5 minutes** discussion time.

The chairpersons of your session will be strict in allowing no more than the time allotted to your paper. Please remember to allow some time for the changeover of speakers and chairpersons introduction and for questions and discussion.

Please **rehearse your talk** to make sure it will fit comfortably into the available time.

Please note that, as a rule, presenters can show a (final) slide with all **acknowledgements**, however, in view of the short time available, **names cannot be read to the audience**.

Make yourself known to the chairpersons and/or the room assistant in your session room before the beginning of the session.

Projection and Technical Setting

- All rooms will be equipped with **data-projection** (no slides).
- The lecture rooms are **exclusively equipped with Windows-PCs (no Macintosh machines)**. Should you absolutely have to **use your own laptop** or notebook, please contact the congress office in advance.
- Please bring a **USB-stick, CD-ROM or floppy disk all formatted for Windows® (PC)**. You may want to carry a second disk/CD as a back-up in case there is any insoluble technical problem.
- File Format: **Microsoft® Power Point™ presentation formatted for Windows® (PC) only**. (Operating system: Windows XP®)
- Preferred Resolution: **XGA (1024 x 768 pixel)**

HOFBURG VIENNA

Conference Venue HOFBURG Vienna Congress Center

Heldenplatz, Vienna, Austria
www.hofburg.com

Opening Hours Registration Desk

Sunday, July 14, 2013	07:30 – 19:30 hrs
Monday, July 15, 2013	07:00 – 19:00 hrs
Tuesday, July 16, 2013	07:15 – 19:00 hrs
Wednesday, July 17, 2013	07:15 – 16:30 hrs

Badges

Participants should collect name badges from the conference registration desk. Since only registered participants will be permitted to attend the scientific sessions, the exhibition and poster areas, you are kindly asked to wear your badge when entering the congress venue. Accompanying persons and exhibitors will also receive badges to allow access to the respective areas. Lost badges can be replaced at the registration desk. However, a handling fee of EURO 30.- will be charged.

Car parking

Reserved parking space can be found around the congress venue. A very limited number of parking slots will be made available directly in front of the HOFBURG Congress Center. We offer this service on a first come, first served basis. However, please be aware that if you park on a reserved parking space, your car will be almost immediately towed away. Numerous parking garages are also available around the city center.

Certificate of attendance

The certificates of attendance are issued at the registration desk. You will receive it at the same time as you register or pick-up your registration material. If you need an additional "confirmation of poster presentation" or "confirmation of oral presentation", please inform the registration desk manager who will have it prepared for pick-up at a agreed on time.

Cancellations and refunds

Notice of cancellation must be made in writing by registered letter or fax to the Congress Office.

Registration fees may be refunded as follows:

Written cancellation received:

- before April 21, 2013: 75% refund
- between April 22 and June 09, 2013: 25% refund
- after June 10, 2013: no refund

The date of the postmark or fax ID is the basis will be the basis for considering refunds. Refunds will be made after the congress.

Cloakroom and luggage

A cloakroom and luggage storage facilities are available in the congress venue.

Coffee breaks

During the session breaks refreshments (coffee, tea, and water) will be served free of charge to participants wearing name badges. Coffee breaks will take place in the exhibition and poster areas.

Currency

The official currency of Austria is the Euro (€). 1 EURO= 1.28 USD = 0.84 GBP = 132.24 JPY = 1.24 CHF = 7.89 CNY (as per date of printing)

Drinking water

Tap water in Austria is of very good quality and can be used without concern.

Internet

Free WiFi will be available trough out the congress center.

Improving Lives.

Insurance

In registering for the STI & AIDS World Congress 2013 participants agree that neither the organising committee nor the congress office assume any liability whatsoever. Participants are requested to make their own arrangements for health and insurance.

Language

The official language of the congress will be English (no simultaneous translation provided).

Lunches

Lunchboxes will be served at the lunchtime satellite symposia organised by the sponsoring companies. The congress will not serve lunch.

Message board

Message boards are available in the registration area.

Telephone

For international calls to Austria, dial the international code (+43) and the correspondent's number without the 0. For international calls from Austria, dial your correspondent's international code and number.

Programme changes – Access to sessions

The conference organisers reserve a right to modify the programme and cannot assume any liability for changes in the programme due to external or unforeseen circumstances. No refunds can be granted in case of cancellation of speakers, lack of space in the conference room or any other incidents during the conference which are beyond the control of the conference organiser.

Public transport

Vienna's public transport network covers 937 km. The five subway lines, 28 tram lines and 90 bus lines bring you quickly and reliably to your destination. The tickets are valid in all trams, buses and subways of the Vienna Transport Authority. Each stamped ticket is valid up to the destination, including (several) transfers. The tickets can be bought at every underground station or in every tobacco shop (Trafic). The rates are as follows: Single ticket € 2.00 (Children € 1.00); 24-hour Vienna ticket € 6.70; 48-hour Vienna ticket € 11.70; 72-hour Vienna ticket: € 14.50; Vienna weekly ticket (only valid from Monday to Monday at 9.00 am) € 15.00. Single tickets can also be purchased directly in buses and tramways but for a higher price of € 2.20 (children: € 1.10). They are valid for one ride including transfers. Children up to six years of age travel for free. Children up to fifteen years of age ride free on Sundays, holidays and during the Vienna school holidays.

Staff

Should you have any questions, congress staff will be pleased to help you. Please contact the registration desk.

Taxis in Vienna

If you do not wish to use the public transport, you can also use one of the numerous taxis waiting at one of the taxi stands or simply hire one on the street. If you wish to call a taxi the following numbers will contact you to the Taxiservices in and around Vienna: (0043) 1 60160 or (0043) 1 40100 or (0043) 1 31300.

Tourist Information

The nearest tourist information point to the congress center is located in the 1st district in the city center: Albertinaplatz, corner of Maysedergasse 1010 Vienna
It is open daily from 09:00hrs to 19:00hrs
www.wien.info

Travelling to HOFBURG by public transport

The Hofburg is located in the centre of the Old Town and can easily be reached with public transport. Two underground stations, and bus and tram stops are within walking distance. Reserved parking is also available nearby.
Underground line U3: station "Herrengasse", walk to Hofburg 5 min
Tramway lignes 1, 2 or D: station "Burgring", walk to Hofburg 3 min
City Bus 2A: bus stop "Heldenplatz", walk to Hofburg 3 min

V.A.T.

A value-added tax (V.A.T.) of 10% (food) to 20% (other items) is applied to all products and services. In most cases it is included in the price. Whenever it is not included, however, it will be clearly specified.

REGISTRATION FEES

Payment received by	before April 21, 2013 (reduced rate)	between April 22 and June 09, 2013 (normal rate)	after June 10, 2013 and onsite	Day Tickets
Regular Delegates	EUR 610	EUR 720	EUR 790	EUR 290
Delegates from low and middle-low income countries ¹	EUR 450	EUR 550	EUR 650	EUR 240
Residents ²	EUR 450	EUR 550	EUR 650	EUR 240
Students ³	EUR 350	EUR 450	EUR 550	EUR 200
Networking Event for non-registered persons ⁴	EUR 80	EUR 80	EUR 100	

¹Only delegates from countries of low and middle-low income according to the list enclosed are eligible for this reduced registration fee.

²Residents are required to provide a confirmation signed by the head of department at the moment of registration. Please send it by fax to +43 1 407 82 74. Confirmations handed in at a later stage cannot be considered.

⁴The Networking Events Fee for non-registered persons includes both networking events but no admission to the scientific programme and exhibition.

IMPORTANT

The reduced registration fee is only applicable, if it has been credited to the congress account before the deadline.

Registering before the respective deadlines without performing an actual payment is not sufficient to benefit from the reduction.

Payments onsite are possible made in cash (in EURO) or by credit card (Diners Club, Mastercard and Visa). No other credit cards are accepted.

What is covered by the registration fees?

Admission to all scientific sessions
Admission to the industry exhibition
All conference material (final programme, abstract book, bag...)
Coffee breaks

Children and Accompanying Persons

Children and members of the public are not permitted in the exhibition area or any room hosting an industry activity. In addition, the STI & AIDS World Congress 2013 asks delegates and faculty to refrain from taking children and accompanying adults to any scientific sessions or practical demonstrations. In the event that children are required to enter the Congress Centre they should be supervised by an adult at all times and observe the restrictions that apply to limited access areas. In the event that a member of public is invited to participate in the STI & AIDS World Congress 2013 Congress scientific programme, they should be accompanied by a qualified healthcare professional or STI & AIDS World Congress 2013 representative observing the STI & AIDS World Congress 2013 restrictions where appropriate.

Cancellations and refunds

Notice of cancellation must be made in writing by registered letter or fax to the Congress Office.

Registration fees may be refunded as follows:

Written cancellation received:

- before April 21, 2013: 75% refund
- between April 22 and June 09, 2013: 25% refund
- after June 10, 2013: no refund

The date of the postmark or fax ID will be the basis for considering refunds. Refunds will be done after the congress.

PLATINUM SPONSORS

Gilead Sciences is a research-based biopharmaceutical company that discovers, develops and commercializes innovative therapeutics in areas of unmet medical need such as HIV, hepatitis, fungal infections, cystic fibrosis and oncology. Today our portfolio includes the only complete treatment regimens for HIV infection available in a once-daily single pill. Since 2003, we have provided our HIV medicines at substantially reduced prices in 130+ low and lower middle-income countries through the Gilead Access Program, and signed non-exclusive licenses with multiple generic manufacturers. As a result of this program, approximately 3.5 million patients in the developing world are now receiving Gilead's therapies. Gilead was the first company to sign an agreement with the Medicines Patent Pool.

Building upon the legacy of pioneers like Louis Pasteur we want to help protect people against infectious diseases so that they can live longer, feel better and achieve more. We are dedicated exclusively to vaccines because we believe prevention is better than cure and immunisation is the best prevention. Our 45 vaccines help protect people from 20 infectious diseases, including cervical cancer, liver cancer, tuberculosis, poliomyelitis, rabies, measles, yellow fever, shingles and influenza. Our vaccines help protect everyone throughout life – from infancy to old age. Sanofi Pasteur MSD is a joint venture between sanofi pasteur - the vaccine division of sanofi-aventis - and Merck & Co. Inc.. We develop, license, market and distribute vaccines in Western Europe. We lead the vaccine industry in Western Europe. Together with sanofi Pasteur and Merck we are working to make vaccines available to more people in the developing world, in alliance with organisations such as the World Health Organisation (WHO) and the Global Alliance for Vaccines and Immunisation (GAVI).

GOLD SPONSORS

Cepheid is a leading molecular diagnostics company that is dedicated to improving healthcare by developing, manufacturing, and marketing accurate yet easy-to-use molecular systems and tests. By automating highly complex and time-consuming manual procedures, the company's solutions deliver a better way for institutions of any size to perform sophisticated genetic testing for organisms and genetic-based diseases. Through its strong molecular biology capabilities, the company is focusing on those applications where accurate, rapid, and actionable test results are needed most, in fields such as critical and healthcare-associated infections, sexual health, genetic diseases and cancer.

Hologic is committed to improving lives through the development of premium diagnostic solutions, medical imaging systems and surgical products.

The company offers fully automated instruments and in vitro nucleic acid testing for STIs, including the highly sensitive and specific APTIMA assays for chlamydia, gonorrhoea, trichomoniasis and HPV. These best-in-class tests run on Hologic's fully automated instrumentation, including the Panther system -- combining all aspects of nucleic acid testing on a single, integrated platform.

As the world leader in in-vitro diagnostics, Roche offers a broad portfolio of instruments and assays for the screening, diagnosis and prevention of infectious diseases. With an ongoing focus on patient needs and the depth and breadth of our comprehensive portfolio, Roche is your partner for improving patient outcome by offering a wide range of solutions to Microbiologists, Clinical Researchers and Infection Preventionists. Visit our booth for the latest molecular, PCR-based assays and proven immunochemistry innovations.

WORLD STI & AIDS 2015 CONGRESS BRISBANE AUSTRALIA 14 - 16 SEPTEMBER

We are pleased to invite you to the World STI & AIDS Congress 2015 to be held in Brisbane, Australia. This congress will be a collaboration of ISSTD/ IUSTI but will also be held in conjunction with the Australasian Sexual Health Conference run by the Australasian Sexual Health Alliance.

You will also benefit from the opportunity of attending the Australasian HIV&AIDS Conference (16-18 September) which has run back-to-back with the Sexual Health Conference in Australia for many years.

We look forward to seeing you in Australia.

Professor Basil Donovan,
Chair of the World STI & AIDS Congress 2015,
President of ISSTD

Professor David Lewis,
Co-Chair of the World STI & AIDS Congress 2015.
